Foundations For Youth Justice:

Foundations for Offender Management Anne Robinson, 2011-07-13 This title provides a comprehensive account of the contexts and challenges of working with people convicted of criminal offences Desistance and Children Alexandra Wigzell, Claire Paterson-Young, Tim Bateman, 2024-05-31 Available open access digitally under CC BY NC ND licence

Desistance understanding how people move away from offending has become a significant policy focus in recent years with desistance thinking transplanted from the adult to the youth justice system in England and Wales This book is the first to critique this approach to justice involved children many of whom are yet to fully develop an identity criminal or otherwise from which to desist Featuring voices from academia policy and practice this book explores practical approaches to desistance with children in the Child First context It gives new insights into how children can be supported to move away from offending and proposes reforms to make a meaningful difference to children s lives The Prisoner Ben Crewe, Jamie Bennett, 2012-03-12 Little of what we know about prison comes from the mouths of prisoners and very few academic accounts of prison life manage to convey some of its most profound and important features its daily pressures and frustrations the culture of the wings and landings and the relationships which shape the everyday experience of being imprisoned The Prisoner aims to redress this by foregrounding prisoners own accounts of prison life in what is an original and penetrating edited collection Each of its chapters explores a particular prisoner sub group or an important aspect of prisoners lives and each is divided into two sections extended extracts from interviews with prisoners followed by academic commentary and analysis written by a leading scholar or practitioner This structure allows prisoners voices to speak for themselves while situating what they say in a wider discussion of research policy and practice The result is a rich and evocative portrayal of the lived reality of imprisonment and a poignant insight into prisoners lives The book aims to bring to life key penological issues and to provide an accessible text for anyone interested in prisons including students practitioners and a general audience It seeks to represent and humanize a group which is often silent in discussions of imprisonment and to shine a light on a world which is generally hidden from view The Tax Law of Private Foundations Shane T. Hamilton, Bruce R. Hopkins, 2024-12-24 Insightful analysis and explanations of private foundation tax law along with hands on practice tools that make compliance easier Now in its seventh edition The Tax Law of Private Foundations by Bruce Hopkins and Shane Hamilton serves as the gold standard reference for navigating the complex regulations governing private foundations This comprehensive book is regularly updated to incorporate the latest changes in tax law providing executives and professionals with valuable clarification expert insights and practical instruction With every edition supplemented annually the book remains current and relevant It offers a clear and concise summary of the regulations governing private foundations explaining the logic underpinning the rules The authors provide a range of helpful tools including checklists sample documents and practice forms to simplify the filing process and ensure compliance with the latest legislation Readers

Foundations for Youth Justice Anne Robinson,2014-02-28 How can youth justice refocus its attentions on the rights and perspectives of young people in transition This exciting new book outlines the state of practice now in flux within structures created by New Labour but moving in a different direction under the Coalition Government With a loosening of rules and prescription it explores opportunities for a fresh orientation that places young people at the centre and works collaboratively to nurture strengths competences and capital The chapters build a picture of the risks and problems that modern society creates for young people while acknowledging that society must respond when their behaviours legitimately cause risks and problems for others The burning question is how we do so and this book proposes a critical perspective that leads into a bold but realistic remodelling of practice It will be ideal for students of youth justice and criminal justice on foundation post qualifying or professional CPD courses

The procurement of consumables by National Health Service acute and Foundation trusts Great Britain: Parliament: House of Commons: Committee of Public Accounts,2011-05-20 The 165 NHS acute and Foundation hospital trusts in England spend over 4.6 billion a year on the procurement of medical supplies and other types of consumable goods Each trust controls its own purchasing and can purchase consumables in various ways dealing direct with suppliers through the national supplies organisation NHS Supply Chain or via the regional Collaborative Procurement Hubs They can also choose to join other trusts in collaborative purchasing arrangements for particular localities or types of supplies The Department sees the future for NHS procurement as a pyramid structure with national regional and local procurement of different types of goods as appropriate to the products and the supplier markets However this theoretical model does not reflect the current complex reality with a profusion of bodies involved in the procurement process Its effectiveness is open to question in the emerging landscape where Foundation Trusts act independently with no explicit incentive to co operate The fragmented system of procurement has produced a great deal of waste with trusts being charged different prices for the same goods ordering in inefficient ways and failing to control the range of products which they purchase The NAO has estimated that trusts could save around 500 million annually 10% of their consumables expenditure by amalgamating small orders into larger less frequent ones rationalising and standardising product choices and striking committed volume deals across multiple trusts A lack of data has limited progress towards more efficient procurement and there has not been sufficient control over procurement practices
