Research in Education , 1973-12 *Consciousness and the Source of Reality* Robert G. Jahn, Brenda J. Dunne, 2011 When Robert G Jahn and Brenda J Dunne first embarked on their exotic scholarly journey more than three decades ago their aspirations were little higher than to attempt replication of some previously asserted anomalous results that might conceivably impact future engineering practice either negatively or positively and to pursue those ramifications to some appropriate extent But as they followed that tortuous research path deeper into its metaphysical forest it became clear that far more fundamental epistemological issues were at stake and far stranger phenomenological creatures were on the prowl than they had originally envisaged and that a substantially broader range of intellectual and cultural perspectives would be required to pursue that trek productively This text is their attempt to record some of the tactics developed experiences encountered and understanding acquired on this mist shrouded exploration in the hope that their preservation in this format will encourage and enable deeper future scholarly penetrations into the ultimate Source of Reality *The Bloomsbury Handbook of Rural Education in the United States* Amy Price Azano, Karen Eppley, Catharine Biddle, 2021-09-09 This handbook begins with a foundational overview of rural education examining the ways in which definitions histories policies and demographic changes influence rural schools This foundational approach includes how corporatization population changes poverty and the role of data affect everyday learning in rural schools In following sections the contributors consider

how school closures charter schools and district governance influence decision making in rural schooling while also examining the influence of these structures on higher education attainment rural school partnerships and school leadership They explore curriculum studies in rural education including place based and trauma informed pedagogies rural literacies rural stereotype threat and achievement Finally they engage with issues of identity and equity in rural schools by providing an overview of the literature related to diverse populations in rural places including Indigenous Black and Latinx communities and exceptional learners Importantly this handbook applies theoretical tools to rural classroom experiences demonstrating the potential of work centered at the intersection of theory rurality and classroom practice Each section concludes with a response by an international scholar situating the topics covered within the broader global context

The Conscious Teacher Deborah Nichols Poulos,2020-01-13 The Conscious Teacher is about all kinds of strategies and techniques educators might employ to become more effective teachers In an accessible conversational style Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike She begins with her personal story of not being able to read all through elementary school Her early failures convinced her she was dumb At first she struggled but when she still failed she adopted an avoidance strategy that served her well until junior high An experience in

the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and later to applying the lessons she learned as a child to her own teaching What makes *The Conscious Teacher* unique are the inspirational lessons that are unlike what most teachers get in their teacher education courses or student teaching Ms Nichols Poulos points out for example that from the very first day it is important that students learn they will be treated with dignity and respect no matter what And especially helpful are the steps Ms Nichols Poulos employs to set up a behavior management plan that works She explains the strategic steps she takes before school starts how essential it is to get to know each student before they walk into class on that first day She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute And she emphasizes the importance of the parent student teacher team and includes many examples of how to communicate with and involve parents even those who may be difficult Foundational to her program are reading and writing Among other things she lays out the steps for students even as early as fourth grade to write five paragraph essays and their own student authored books and to research and write reports that include bibliographies When she differentiated curriculum to support all students needs she found their learning accelerated All teachers will appreciate her ideas about how to teach the basics of math as well as advanced math concepts And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed Shakespeare s Hamlet Macbeth King Lear Julius Caesar and A Midsummer Night s Dream She also shows how to integrate social studies with literature and writing Her experiences taught her that young students are much more capable than many people realize *The Conscious Teacher* is an indispensable guide for all new teachers Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well *The Conscious Teacher* is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling *WPI Interactions* ,1988
