**The Law and Policy of Biofuels** Yves Le Bouthillier, Annette Cowie, Paul Martin, Heather McLeod-Kilmurray, 2016-05-27

In the last twenty years the biofuels industry has developed rapidly in many regions of the world. This timely book provides an in-depth and critical study of the law and policies in many of the key biofuels producing countries such as Brazil, China, and the US, as well as the EU and a number of other countries where this industry is quickly developing. Drawing on a range of disciplines, the contributors examine the roles of the public and private sectors in the governance of biofuels. They discuss topics such as sustainability and biofuels and provide a critical review of regulatory regimes for biofuels. They conclude by proposing recommendations for more effective and efficient biofuel policies. Academics working in the area of renewable energy and students in environmental law will find this book to be of interest. It will also be of use to policy makers around the world looking to learn from various existing regimes. Contributors: G. Berndes, M. Brand, O. A. Cowie, A. Cowie, K. S. Dahmann, J. De Beer, O.
