Annual Report Mpumalanga (South Africa). Department of Education, 2017 *Politics and Governance of Basic Education* Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-21 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re-orient the system towards learning.

Hunger and Poverty in South Africa Jacqueline Hanoman, 2017-09-01 Hunger and Poverty in South Africa: The Hidden Faces of Food Insecurity explores food insecurity as an issue of socioeconomic, political, cultural, and environmental inequity and inequality. Based on extensive original research in Free State Province, South Africa, the book explores how people living in poverty make meaning of their food circumstances within the socio-cultural, political, and economic contexts of post-apartheid South Africa: how they view the government's food security policies and programs and their perceived agency to affect change. The personal narratives contained in the book show that food insecurity is shaped by many issues among which are structural poverty, racism, attempts or non-attempts at reconciliation during and after apartheid, public health issues such as HIV/AIDS, and environmental circumstances. At a time when most discourse around food insecurity focuses on how to provide more food to people facing hunger, this book's multidimensional approach is a valuable contribution to the contemporary dialogue on poverty, food security, insecurity, sustainability, and democratic agency both within South Africa and around the world. This book will be of interest to researchers in the areas of food security, multidimensional poverty, democratic agency, and sustainable development both in South Africa and internationally.
