Today, the tiny island seems little more than a colorful speck in the Caribbean, an exotic tourist hideaway. One million years ago, the land that is now Nevis Peak thrust up from the sea-floor to form the island, and the extinct volcanic cone still intercepts the trade winds at an altitude of 3,200 feet, its jagged peak often obscured behind a thick swirl of clouds. **Consumerism and Prestige** Anthony Enns,Bernhard Metz,2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts such as the cover binding typography and paper stock reflect or even determine their cultural status In many cases for example the distinctions between highbrow and lowbrow taste have little to do with the content of the texts themselves as books often function as markers of socioeconomic status like clothing or home d cor One might even go so far as to say that the concept

of literary taste is more closely related to fashion sense than critical judgment The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology literacy and social power
