Addressing Gun Violence Through Local

Ordinances, 1995 **The Chivalric Turn** David Crouch, 2019-06-06 The Chivalric Turn examines the medieval obsession with defining and practising superior conduct and the social consequences that followed from it. Historians since the seventeenth century have tended to understand medieval conduct through the eyes of the writers of the Enlightenment, viewing superior conduct as knightly behaviour and categorising it as chivalry. Using for the first time the full range of the considerable twelfth and thirteenth century literature on conduct in the European vernaculars and in Latin, The Chivalric Turn describes and defines what superior lay conduct was in European society before chivalry and maps how and why chivalry emerged and redefined superior conduct in the last generation of the twelfth century. The emergence of chivalry was only one part of a major social change because it changed how people understood the concept of nobility which had consequences for the medieval understanding of gender, social class, violence and the limits of law.

The Southern Shores of the Mediterranean and its Networks Patricia Lorcin, 2017-10-02 The majority of scholarly conceptions of the Mediterranean focus on the sea's northern shores with its historical epicentres of Spain, France or Italy. This book seeks to demonstrate the importance of economic, political and cultural networks emanating from the Mediterranean's lesser studied southern shores. The various chapters emphasize the activities that made connections between the southern shores, sub-Saharan Africa, the lands along its northern shores and beyond to the United States. In doing so, the book avoids a Eurocentric approach and details the importance of the players and regions of the southern hinterland in the analysis of the Mediterranean space. The cultural aspects of the North African countries, be they music, literature, film, commerce or political activism, continue to transform the public spheres of the countries along the northern shores of the Mediterranean and beyond to the whole of the European continent. In its focus on the often overlooked North African shore, the work is an innovative contribution to the historiography of the Mediterranean region. This book was originally published as a special issue of the *Journal of North African Studies*.

Index Medicus, 1898 **Hoarding Memory** Amy L. Hubbell, 2020-12 Hoarding Memory looks at the ways the stories of the Algerian War 1954-62 have proliferated among the former French citizens of Algeria. By engaging hoarding as a model, Amy L. Hubbell demonstrates the simultaneously productive and destructive nature of clinging to memory. These memories present massive amounts of material akin to the stored objects in a hoarder's house. Through analysis of fiction, autobiography, art and history that extensively use collecting, layering and repetition to address painful war memories, Hubbell shows trauma can be hidden within its own representation. Hoarding Memory dedicates chapters to specific authors and artists who use this hoarding technique: Marie Cardinal, Leïla Sebbar and Benjamin Stora in writing, and Nicole Guiraud and Patrick Altes in art. All were born in Algeria during colonial French rule but in vastly different contexts, each suffered personal or inherited trauma from racism, physical or psychological abuse, terrorist or other violent acts of war and exile in France. Zineb Sedira's artwork is also included as an example of traumatic memory inherited from her parents. Ultimately, this book shows how traumatic experience can be conveyed in a seemingly

open account that is compounded and compacted by the volume of words images and other memorial debris that testify to the pain **Language Conflict in Algeria** Mohamed Benrabah,2013-05-16 This book presents a detailed survey of language attitudes conflicts and policies over the period from 1830 when the French occupied Algeria up to 2012 the year this country celebrated its 50th anniversary of independence It traces the evolution of language planning policies and reactions to them in both the colonial and post colonial eras **Current Contents.
