learners will gain familiarity with the operation and variations of emissions systems and associated onboard monitors. The curriculum especially focuses on applying diagnostic strategy to and performing service procedures for emissions systems faults. Learners will also develop an understanding of IM testing and an ability to interpret IM test reports to aid in diagnosis. This objective based curriculum will prepare learners for the challenges of servicing engine management systems in the shop today. This is a complete curriculum solution for Advanced Automotive Engine Performance. Online courseware is available and is rich in video and animation to support understanding of complex systems. This solution is available in print plus digital or digital only offerings providing eBook and online course pairing with mobile friendly adaptability. Complete tests, tasksheets and instructor resources make this curriculum easy to adopt and integrate into any automotive program.

Proceedings of the Fourth SIAM International Conference on Data Mining Michael W. Berry, 2004-01-01. The Fourth SIAM International Conference on Data Mining continues the tradition of providing an open forum for the presentation and discussion of innovative algorithms as well as novel applications of data mining. This is reflected in the talks by the four keynote speakers who discuss data usability issues in systems for data mining in science and engineering issues raised by new technologies that generate biological data, ways to find complex structured patterns in linked data and advances in Bayesian inference techniques. This proceedings includes 61 research papers. *Computerworld*, 1991-07-15.
