Literature and Popular Culture Mary J. Magoulick, 2022-02-04 Honorable Mention for the 2022 Ellis Maranda Prize awarded by the Women's Section of the American Folklore Society Goddess characters are revered as feminist heroes in the popular media of many cultures. However, these goddess characters often prove to be less promising and more regressive than most people initially perceive. Goddesses in film, television, and fiction project worldviews and messages that reflect mostly patriarchal culture, including essentialized gender assumptions, in contrast to the feminist empowering levels many fans and critics observe. Building on critiques of other skeptical scholars, this feminist folkloristic approach deepens how our re-mythologizing of the ancient past reflects a contemporary worldview and rhetoric. Structures of contemporary goddess myths often fit typical extremes as either vilified destructive dark and chaotic typical in film or television or romanticized positive even utopian typical in women's speculative fiction. This goddess spectrum persistently essentializes gender, stereotyping women as emotional, intuitive, sexual, motherly beings good or bad, precluded from complex potential and fuller natures. Within apparent good over evil pop culture narrative frames, these goddesses all suffer significantly. However, a few recent intersectional writers like N.K. Jemisin break through these dark reflections of contemporary power dynamics to offer complex characters who evince hopepunk. They resist typical simplified reductionist absolutes to offer messages that resonate with potential for today's world. Mythic narratives featuring goddesses often do but need not serve merely as ideological mirrors of our culture's still problematically reductionist approach to women and all humanity.

New Faces of God in Latin America Virginia Garrard, 2020-11-01 Combining historical and ethnographic research methods along with a thorough review of existing literature on the study of Latin American Christianity, *New Faces of God in Latin America* addresses the important question of how global religion and local culture interact, situating the experience of Latin American Christianity in the broader conversations in the field of world Christianity, particularly with respect to the growing understanding of Christianity as a non-Western religion. Through case studies of different Pentecostal experiences in Latin America, Virginia Garrard explores cross-pollination and interaction with indigenous religions and cultures, finding widely varied responses to the material and spiritual needs of Latin Americans. The author locates Latin American religious experience within a field known as the history of non-Western Christianity. This focuses on the experience, perceptions, and adaptations of those who adopt Christianity outside the context of Western missionary or other colonizing projects. The book engages with the intersection of culture and spirit-filled religion with an eye to how those interactions help frame an alternative religious modernity. Throughout the book, the author uses culture as both a heuristic lens and as a variable within the equation. She argues that culture helps us understand how people engage with and reconfigure global religious flows within their own imaginations and for their own parochial uses.
