Solid Waste Management Elizabeth M. Thomas-Hope, 1998 Solid waste has become a major consequence of development and modernization yet some of the greatest challenges to its management are felt most keenly in the developing countries This is part of the larger paradox of development namely that factors that create the most intransigent problems currently facing the developing countries are invariably those which derive from development itself Introduction This volume presents a collection of papers which with perspectives from Africa and the Caribbean raise critical issues in the management of solid waste It is intended to offer a basis for discussion among the wide range of disciplines and sectors involved in solid waste management and suggest directions for future work both in the theoretical and practical dimensions of the challenge with which developing countries are confronted *Resources in Education*, 1998 **Inside Jamaican Schools** Hyacinth L. Evans, 2001 Students and teachers of education in the Caribbean have long relied on ethnographic research from North America to enrich their understanding of life in schools and classrooms Based on actual experiences from the perspectives of both students and teachers this collection of ethnographic research articles provides the first up close view of Jamaican schools and classrooms Hyacinth Evans and her research team used careful well executed interviews and participant observation methods The result is an insightful view of the ways society's tensions are played out in educational settings the ways personalities are shaped and identities formed in face to face interactions and the ways circumstances and experiences in the Jamaican setting affect teaching and learning The articles examine Student teacher interaction Teacher authority how it is maintained nurtured or eroded The social construction of student interest and attention versus disruptiveness and apathy Consequences of streaming children in perceived ability groups Standard Jamaican English SJE methods and their effectiveness in teaching Creole speaking students *Culture and Computing* Matthias Rauterberg, 2022-06-16 This book constitutes the refereed proceedings of the 10th International Conference on Culture and Computing C C 2022 held as part of the 23rd International Conference HCI International 2022 which was held virtually in June July 2022 The total of 1271 papers and 275 posters included in the HCII 2022 proceedings was carefully reviewed and selected from 5487 submissions The C C 2022 proceedings presents topics such as User Experience Culture and Technology Culture and Computing in Arts and Music and preservation and fruition of cultural heritage as well as developing and shaping future cultures **Research in Education**, 1974 **Nutrition Education Materials and Audiovisuals for Grades Preschool - 6** Shirley King Evans, 1993 **Science Education International**, 1997 **Nutrition Education Printed Materials and Audiovisuals** Shirley King Evans, 1989 *Nutrition Education Materials* Holly Berry Irving, 1987 **The Anthropocene** David R. Butler, 2021-12-21 This book is devoted to the Anthropocene the period of unprecedented human impacts on Earth's environmental systems and illustrates how Geographers envision the concept of the Anthropocene This edited volume illustrates that geographers have a diverse perspective on what the Anthropocene is and represents The chapters also show

that geographers do not feel it necessary to identify only one starting point for the temporal onset of the Anthropocene. Several starting points are suggested and some authors support the concept of a time transgressive Anthropocene. Chapters in this book are organized into six sections but many of them transcend easy categorization and could have fit into two or even three different sections. Geographers embrace the concept of the Anthropocene while defining it and studying it in a variety of ways that clearly show the breadth and diversity of the discipline. This book will be of great value to scholars, researchers, and students interested in geography, environmental humanities, environmental studies, and anthropology. The chapters in this book were originally published as a special issue of the journal *Annals of the American Association of Geographers*.
