JoAnn Jurchan and Dr Chuck Downing examine what successful teachers are doing and not doing to achieve those goals. Often without realizing it, many teachers provide students ways to complete their assignments with minimal effort or comprehension. The problem is how to avoid the TMI trap because Too Much Information can stifle critical thinking. Tune Up Your Teaching provides clear and detailed methods teachers can use to raise the level of both thinking and learning in their classrooms. Written in a conversational style, Jurchan and Downing use concrete examples in all core areas of education. To clarify critical points, the authors include He Said She Said dialogues providing insight into their thought process. Neither a cookbook nor a one size fits all solution, Tune Up Your Teaching instead describes a research based process that can be personally tailored by any teacher to her or his situation.
