

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

 Essential Services** Giuseppe Carabetta,2024-10-14 This book examines how collective bargaining disputes are resolved
 among police and essential service employees In Australia as in other common law countries police and other highly essential
 employees such as fire fighters and ambulance officers have long had access to a form of binding arbitration to settle
 collective bargaining disputes The traditional arbitration based system in Australia has however been replaced in recent
 decades with a marked based collective bargaining system The current Fair Work system restricts access to arbitration
 favouring collective bargaining based on the parties prerogative to make their own agreements and supported by a limited
 right to industrial action including strikes during bargaining Yet police officers particularly are subject to considerable
 restraints on any entitlement to participate in industrial action The problem is that with limited access to arbitration and an

especially limited right to industrial action intractable disputes may continue indefinitely without any impasse breaking process to prevent the flow on harms of long running police disputes This raises the essential question underpinning this study what form of dispute resolution system is appropriate to protect both the legitimate industrial interests of police officers and the community's interest in the uninterrupted provision of essential policing services The author in his extensive field work research and his study of international case studies has developed a useful model for mandatory interest arbitration among police and other essential services personnel The lessons and recommendations in the book offer insights for essential services labour law in Australia and overseas

Democracy's Foot Soldiers Reena N. Goldthree, 2025-11-18 A captivating history of the Afro Caribbean soldiers who fought for the British Empire in World War I and their transnational campaign for equality Following the outbreak of World War I tens of thousands of men from the British Caribbean volunteered as soldiers to fight on behalf of the British Empire Despite living far from the bloody battlefields of Europe these men enlisted for a variety of reasons to affirm their masculine honor pursue economic mobility or enhance their standing as colonial subjects Democracy's Foot Soldiers offers a sweeping account of the British West Indies Regiment the military unit established in 1915 for Caribbean volunteers documenting their service during the war and their dramatic battles for racial equality and fair treatment in the armed forces and on the home front Drawing on previously overlooked archival sources in the Caribbean England and United States Reena Goldthree demonstrates how wartime military mobilization spurred heightened demands for social economic and political reform in the colonial Caribbean She recovers the forgotten contributions of Afro Caribbean troops during the war following their harrowing journeys to military camps in Europe Africa and the Middle East Goldthree chronicles how after the war soldiers their families and their civilian allies launched their own war for democracy strategically using the rhetoric of imperial patriotism rather than the more militant language of anticolonial nationalism to fight for respect and equality Democracy's Foot Soldiers places these soldiers at the forefront of popular struggles over race labor and economic justice in the early twentieth century Caribbean showing that the war years were a crucial period of political ferment and mass mobilization in the region

A Purposive Approach to Labour Law Guy Davidov, 2016-05-05 The mismatch between goals and means is a major cause of crisis in labour law The regulations that we use the legal instruments and techniques are no longer in sync with the goals they are supposed to advance This mismatch leads to a problem of coverage where many workers who need the protection of labour law are not covered by it as well as a problem of obsolescence as labour laws are

not sufficiently updated in light of dramatic changes in the labour market Adopting a purposive approach to interpretation and legislative reform this volume addresses this crisis of mismatch It first articulates the goals of labour law both general and specific through an in depth normative discussion and a consideration of critiques The book then proceeds to reconsider our means asking what we need to change or improve in the laws themselves in order to better advance the goals Some of the proposed solutions are at the level of judicial interpretation others at the legislative level The book offers several examples of the way a purposive analysis should be performed in concrete cases It also recommends institutional structures that are suited to ongoing adaptation of the law to ensure that our goals are advanced even when circumstances frequently change Finally in response to the crisis of enforcement in this field which frustrates the achievement of labour law s goals several proposals to improve compliance and enforcement are considered

The I.L.O. Year Book ,1933 *Social Reform, Modernization and Technical Diplomacy* Véronique Plata-Stenger,2020-04-20 Founded in 1919 under the Treaty of Versailles as part of the League of Nations system the ILO is still today the main organization responsible for the international organization of work and the improvement of working conditions in the world Widely recognized for its efforts in building international labour standards the ILO remains little studied by development specialists and historians This book intends to fill this gap and traces the history of international development and its early pioneers through an analysis of the activities of the International Labour Office the Secretariat of the International Labour Organization between 1930 and 1946 In this book development is used as a key to questioning the ILO s place and function in the expanding inter war world The development practices and discourses that emerged in the 1930s were mainly intended to support the ILO s universalization strategy which was made necessary by the events that shook Europe at the time Development discourses and practices were also part of the *esprit du temps* as they were closely linked to the affirmation of the planist and rationalist ideas of the 1930s However development for the ILO was not reduced to a project of economic modernization but was seen as a tool for social engineering as evidenced by the ILO s missions of technical assistance organized since 1930 The analysis of the expertise work makes it possible to highlight the logics that prevailed in technical assistance which was more in line with institutional objectives than with the dissemination of a genuine expertise This book therefore hopes to bring new insight on the history of internationalism and international organizations during the inter war period and the Second World War as well as on the role of the ILO in the history of international development thinking and practices

The Agrarian Question and Reformism in Latin America

Alain de Janvry, 1981-12-01 *The Agrarian Question and Reformism in Latin America* epitomizes the emerging tradition of conflict oriented approaches to problems of economic agricultural and rural development in Third World nations. Drawing on firsthand observations of the agrarian crises in Argentina, Chile, Colombia, Peru, and ten other Latin American nations, Alain de Janvry effectively blends Marxist theories of world wide economic development with empirical analysis and policy recommendations. De Janvry offers both a careful examination of the conditions of underdevelopment in Latin America and detailed discussions of the achievements and limits of technological change, land reform, integrated rural development, and basic needs programs. *The Agrarian Question and Reformism in Latin America* is written for both practitioners and academicians. Students of economic development will benefit especially from its intelligent explication of conflict oriented theory and technique.
