School Choice and the Betrayal of

Democracy Robert Asen, 2021-10-04 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper At their core these efforts are antidemocratic Arguing that democratic communities and public education need one another Asen examines the theory driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another The result is a society at odds with democracy Probing and thought provoking *School Choice and the Betrayal of Democracy* features interviews with local on the ground advocates for public education and offers a countering vision of democratic education one oriented toward civic relationships community and equality This book is essential reading for policymakers advocates of public education citizens and researchers
