*Lloyd's Register Technical Association Session 1964-1965* Lloyd's Register Foundation, 1964-01-01 The Lloyd s Register Technical Association LRTA was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd s Register Publications have consistently been released on a yearly basis with a brief interruption between 1938 and 1946 These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise LR s competitive advantage Today the LRTA takes a fresh approach focusing on collaboration by combining professional expertise from across LRF Group to ensure a frequent output of fresh perspectives and relevant content The LRTA has evolved into a Group wide initiative that identifies captures and shares knowledge spanning various business streams and functions To support this modern approach the LRTA has adopted a new structure featuring representatives and senior governance across the business streams and the LR Foundation The Lloyd s Register Technical Association Papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current LR Technical Association The Lloyd s Register Staff Association LRSA changed its name to the Lloyd s Register Technical Association LRTA in 1973

Polar Icebreakers in a Changing World National Research Council, Transportation Research Board, Marine Board, Division on Earth and Life Studies, Polar Research Board, Committee on the Assessment of U.S. Coast Guard Polar Icebreaker Roles and Future Needs, 2007-03-14 The United States has enduring national and strategic interests in the polar regions including citizens living above the Arctic circle and three year round scientific stations in the Antarctic Polar icebreaking ships are needed to access both regions Over the past several decades the U S government has supported a fleet of four icebreakers three multi mission U S Coast Guard ships the POLAR SEA POLAR STAR and HEALY and the National Science Foundation s PALMER which is dedicated solely to scientific research Today the POLAR STAR and the POLAR SEA are at the end of their service lives and a lack of funds and no plans for an extension of the program has put U S icebreaking capability at risk This report concludes that the United States should continue to support its interests in the Arctic and Antarctic for multiple missions including maintaining leadership in polar

science The report recommends that the United States immediately program budget design and construct two new polar icebreakers to be operated by the U S Coast Guard The POLAR SEA should remain mission capable and the POLAR STAR should remain available for reactivation until the new polar icebreakers enter service The U S Coast Guard should be provided sufficient operations and maintenance budget to support an increased regular and influential presence in the Arctic with support from other agencies The report also calls for a Presidential Decision Directive to clearly align agency responsibilities and budgetary authorities

Nuclear Power Pavel Tsvetkov,2011-09-09 We are fortunate to live in incredibly exciting and incredibly challenging time Energy demands due to economic growth and increasing population must be satisfied in a sustainable manner assuring inherent safety efficiency and no or minimized environmental impact These considerations are among the reasons that lead to serious interest in deploying nuclear power as a sustainable energy source At the same time catastrophic earthquake and tsunami events in Japan resulted in the nuclear accident that forced us to rethink our approach to nuclear safety design requirements and facilitated growing interests in advanced nuclear energy systems This book is one in a series of books on nuclear power published by InTech It consists of six major sections housing twenty chapters on topics from the key subject areas pertinent to successful development deployment and operation of nuclear power systems worldwide The book targets everyone as its potential readership groups students researchers and practitioners who are interested to learn about nuclear power
