## DESKTOP MICROPHONE

### SM-20

Thank you for purchasing the **SM-20 DESKTOP MICROPHONE**.

The **SM-20** is a unidirectional, electret microphone designed for base station operation with an Icom transceiver.

The **SM-20** cannot be used with a non-Icom transceiver since the power is supplied from the connected transceiver.

#### FRONT VIEW

#### ① FREQUENCY UP/DOWN SWITCHES [UP] / [DOWN]

Change the frequency up or down. Some transceivers do not have this function.

#### ② PTT SWITCH

Push to transmit, then release to receive.

#### ③ PTT LOCK SWITCH [LOCK]

Push IN to transmit continuously, then push OUT to receive.

#### BOTTOM VIEW

#### ④ MIC GAIN CONTROL [MIC GAIN]

Varies microphone output level. Use this control when the connected transceiver has no mic gain controls.

**NOTE:** Rotating the control too far clockwise may result in overmodulation and transmit signal distortion.

#### ⑤ LOW CUT SWITCH [LOW CUT]

Cuts out low-frequency components of input voice signals.

#### • MICROPHONE PIN CONNECTION

The pins are shown from the cable, or rear, side of the plug.

**Microcomputing** ,1981 Museums John E. Simmons,2016-07-07 This comprehensive history of museums begins with the origins of collecting in prehistory and traces the evolution of museums from grave goods to treasure troves from the Alexandrian Temple of the Muses to the Renaissance cabinets of curiosities and onto the diverse array of modern institutions worldwide The development of museums as public institutions is explored in the context of world history with a special emphasis on the significance of objects and collecting The book examines how the successful exportation of the European museum model and its international adaptations have created public institutions that are critical tools in diverse societies for understanding the world Rather than focusing on a specialized aspect of museum history this volume provides a comprehensive synthesis of museums worldwide from their earliest origins to the present Museums A History tells the fascinating story of how museums respond to the needs of the cultures that create them Readers will come away with an understanding of the comprehensive history of museums from prehistoric collections to the presentthe evolution of museums presented in the context of world historythe development of museums considered in diverse cultural contextsglobal perspective on museumsthe object centered history of museumsmuseums as memory institutionsA constant theme throughout the book is that museums have evolved to become institutions in which objects and learning are associated to help human beings understand the world around them Illustrations amplify the discussions The Archaeologist's Manual for Conservation Bradley A. Rodgers,2007-05-08 This is a Foreword by an archaeologist not a conservator but as Brad Rodgers says Conservation has been steadily pulled from archaeology by the forces of specialization p 3 andhewantstoremedythatssituationthroughthismanual He seesthisworkasa calltoactionforthenon professionalconservator permitting curators conservators and archaeologists to identify artifacts that need professional attention and allow these professionals to stabilize most artifacts in their own laboratories with minimal intervention using simple non toxic procedures p 5 It is the mission of Brad s manual to bring conservation back into archaeology p 6 The degree of success of that goal depends on the degree to which archaeologists pay attention to and put to use what Brad has to say because as he says The conservationist archaeologist is responsible to make preparation for an artifact s care even before it is excavated and after its storage into the foreseeable future a tremendous responsibility p 10 The manual is a combination of highly technical as well as common sense methods of conserving wood iron and other metals ceramics glass and stone organicsandcomposites afarbetterguidetoartifactconservationthanwasavailable to me when I rst faced that archaeological challenge at colonial

Brunswick Town North Carolina in 1958 a challenge still being faced by archaeologists today The stage of conservation in 1958 is in dramatic contrast to the procedures Brad describes in this manual conservation has indeed made great progress For instance a common procedure then was to heat the artifacts red hot in a furnace a method that made me cringe Connecting Museums Mark O'Neill, Glenn Hooper, 2019-10-16 Connecting Museums explores the boundaries of museums and how external relationships are affected by internal commitments structures and traditions Focusing on museums relationship with health inclusion and community the book provides a detailed assessment of the alliances between museums and other stakeholders in recent years With contributions from practitioners and established and early career academics this volume explore the ideas and practices through which museums are seeking to move beyond what might be called one off contributions to society to reach places where the museum is dynamic and facilitates self generation and renewal where it can become not just a provider of a cultural service but an active participant in the rehabilitation of social trust and democratic participation The contributors to this volume provide conceptual critiques and clarification of a number of key ideas which form the basis of the ethics of museum legitimacy as well as a number of reports from the front line about the experience of trying to renew museums as more valuable and more relevant institutions Providing internal and external perspectives Connecting Museums presents a mix of applied and theoretical understandings of the changing roles of museums today As such the book should be of interest to academics researchers and students working in the broad fields of museum and heritage studies material culture and arts and museum management **Subject Guide to Books in Print**, 1975 *The Army Communicator*, 1987 **Museums on the Web** Karin de Wild, Nadezhda Povroznik, 2025-03-11 This book gathers insights from leading experts to explore the field of virtual museums It delves into pioneering initiatives from the past deepens our understanding of current museum practices on the Web and examines emerging possibilities for future developments The first virtual museums appeared on the World Wide Web in the early 1990s today digital collections and online activities are integral to museum practice In a remarkably short time online technologies have transformed how museums manage collections design exhibitions and interact with audiences As the digital landscape evolves with advancements like AI and the Semantic Web museums will continue to face new challenges How did we reach this point This book examines the legacies and rapid advancements of virtual museums to provide a deeper understanding of and better leverage for digital technologies This insightful volume is intended for scholars museum professionals and anyone interested in the digital transformation of museums It was originally published as a special issue of the journal *Internet Histories*
