The Kaito Protocol Gaurav Garg, Her mind is a weapon Her memory is the battlefield A woman awakens on a maglev train hurtling toward Osaka In her hand is a gun Across from her is a dead man In her mind is nothing A perfect terrifying void save for a single echoing word Kaito This lone clue propels her into a desperate flight for her life a high stakes manhunt led by a ruthlessly efficient corporate assassin who anticipates her every move She is a ghost a fugitive armed with deadly combat instincts she doesn't remember acquiring and haunted by a past she cannot access As she plunges into the shadows of Japan's underworld she discovers the dead man was a scientist and the secret he carried is the key to her own shattered identity the schematics for a neuro scrambler a high tech weapon capable of erasing a person's soul She learns her amnesia was no accident and Kaito is not a name but a black site where the darkest sins of corporate greed are made real The deeper she digs the more horrifying the conspiracy becomes culminating in a shocking twist she is not a victim of this technology but its creator Now the hunter chasing her is revealed to be more than just an assassin he is the first and most perfect product of her forgotten science a man with no past and no conscience He is not just after the data He is after the blueprint for the ultimate weapon a blueprint that exists only in the architecture of her mind To find redemption for her sins and honor the sacrifices of those who died to protect her she must stop running and turn the hunt back on her pursuers Her only path forward leads back to the heart of her own terrible creation for a final explosive confrontation where she must choose between destroying her legacy or losing herself forever
