The Collected Poetry Aimé Césaire, 1983-10-03 The surrealist poetry of the noted Martinican author Aimé Césaire portrays Africa's fight for freedom from colonialism *Play as Symbol*

of the World Eugen Fink, 2016-06-06 Eugen Fink is considered one of the clearest interpreters of phenomenology and was the preferred conversational partner of Edmund Husserl and Martin Heidegger. In *Play as Symbol of the World* Fink offers an original phenomenology of play as he attempts to understand the world through the experience of play. He affirms the philosophical significance of play, why it is more than idle amusement, and reflects on the movement from child's play to cosmic play. Well known for its nontechnical literary style, this skillful translation by Ian Alexander Moore and Christopher Turner invites engagement with Fink's philosophy of play and related writings on sports, festivals, and ancient cult practices.

Making Worlds Angela Vanhaelen, Bronwen Wilson, 2022-11-01 Taking into account the destructive powers of globalization, *Making Worlds* considers the interconnectedness of the world in the early modern period. This collection examines the interdisciplinary phenomenon of making worlds with essays from scholars of history, literary studies, theatre, and performance art, history, and anthropology. The volume advances questions about the history of globalization by focusing on how the expansion of global transit offered possibilities for interactions that included the testing of local identities through inventive experimentation with new and various forms of culture. Case studies show how the imposition of European economic, religious, political, and military models on other parts of the world unleashed unprecedented forces of invention as institutionalized powers came up against the creativity of peoples' cultural practices, materials, and techniques of making. In doing so, *Making Worlds* offers an important rethinking of how early globalization inconsistently generated ongoing dynamics of making, unmaking, and remaking worlds.

After the Deluge François Dosse, 2004-11-17 Madame de Pompadour's famous quip, *Après nous le déluge*, serves as fitting inspiration for this lively discussion of postwar French intellectual and cultural life. Over the past thirty years, North American and European scholarship has been significantly transformed by the absorption of poststructuralist and postmodernist theories from French thinkers. But Julian Bourg's seamlessly edited volume proves that, historically speaking, French intellectual and cultural life since World War Two has involved much more than a few infamous figures and concepts. Motivated by a desire to narrate and contextualize the deluge of French theory, *After the Deluge* showcases recent work by today's brightest scholars of French intellectual history that historicizes key debates, figures, and turning points in the postwar era of French thought. Relying on primary and archival sources, contributors examine, among other themes, left-wing critiques of the Left, the internationalizing of thought, the institutional and affective conditions of cultural life, and the religious imagination. They revive neglected debates and figures and explore the larger impact of political quarrels. In an afterword, preeminent French historian François Dosse heralds the arrival of a new generation, a historiographical sensibility that brings fresh, original perspectives and a passion for French history to the contemporary French intellectual arena. *After the Deluge* adds significant depth and breadth to our understanding of postwar French intellectual and cultural history.
