Making It Count:

Making It Count Arunabh Ghosh, 2022-01-11 Among the biggest challenges facing leaders of the newly established People's Republic of China PRC was how much they did not know In 1949 at the end of a long sequence of wars the government of one of the largest states in the world committed to fundamentally re engineering its society and economy via socialist planning while having almost no hard reliable statistical data about their own country This book is a history of attempts made to resolve this crisis in counting Drawing on a wealth of official institutional and private sources culled from China India and the United States the author explores the choices made and the effects they engendered through a series of vivid encounters with political leaders professional statisticians academics ordinary statistical workers and even literary figures Early reliance on Soviet inspired methods of enumeration became increasingly untenable in China by the middle of the 1950s A series of unprecedented and unexpected exchanges with Indian statisticians followed as the Chinese sought to learn about the then exciting new technology of random sampling These developments were in turn overtaken by the tumult of the Great Leap Forward 1958 1961 when both probabilistic and exhaustive methods were rejected and statistics was refashioned into an essentially ethnographic enterprise The author argues that this history usually narrowly described as a universal if European history cannot be understood without acknowledging Soviet and Indian influences which not only revises existing models of Cold War science but also globalizes the wider developments in the history of statistics and data For historians of China and social science and political scientists sociologists and anthropologists studying modern China

The Pacific Reporter ,1907 *Switchwords Miracles: Attract whatever you like and live your dream life full of abundance and happiness!* Monika Pavlickova,2020-03-18 SWITCHWORDS can help you to attract whatever you would like to have including HEALTH HAPPINESS LOVE MONEY FINANCIAL freedom and live your dream life You will learn an easy fast and effective way to attract whatever you want in life Switchwords are super easy to use remember and apply in your daily life and you ll have fun using them Switchwords have been created to directly influence our subconscious mind and achieve your dreams and desires fast Dear Reader my ex boss was a short blood sucking vampire His cold eyes and a steely glare that could kill a spider on the spot Many believed that he has been possessed by demons and attending demonic sessions When he asked you a question he would move his head to one side and ask weird questions and shout and scream I would work my ass off to get clients not only for me but also for his business He always wanted more and more clients and increased business revenue without wanting to spend any of his dimes on marketing and advertising On top of it the

receptionist did everything she could to repel any good client and kept offering them her own services She was grimacing on virtually all clients Despite all of this I kept working hard did cold calling every day and invested my own money on getting the leads and draining my savings account I couldn't sleep at night from all the mental abuse and physical exhaustion Also at that time I had a crush on a guy who promised me collaboration and promotion of my business Of course it didn't happen and worse than that he chose to help a prostitute get some work and promotion I had nobody to turn to so I turned to alcohol for help to soothe the pain I went through a mental breakdown and wanted to commit suicide many times I felt no hope and didn't know how to get out of the black magic possession One morning when I woke up in pain and covered in blood and emotionally spiritually and physically depleted with broken glass on the floor I knew something is gotta change NOW I couldn't get up and passed out I started to see the light at the end of the tunnel when I saw the flashing light of the ambulance Who did that I DID Who does that YOU DO Up to your eyeballs in debt and pain Just to have your name on the business window The SS spiritual guru had a diamond ring I called it a blood diamond Because I knew every bit of the blood sweat and tears it took to get new clients for the business He would twist that ring around his finger the whole time he leered at me and talked down to you I lived with my neck under the SS boss boot until the day I discovered and applied the secrets mentioned in this book SWITCHWORDS MIRACLES and my other books REALITY CREATION SECRETS REALITY CREATION QUOTES Spending thousands of pounds on the law of attraction training and books did not work Applying ancient knowledge from my books and choosing my own preferred reality did work In 6 weeks I went from 15 2 leads per week to 50 100 per week And I went from chasing and begging the clients to actually clients chasing and begging me to get an appointment And from then my life has completely changed because now I have multiple thriving online businesses and have a partner who loves me adores me and is very proud of me I went from 0 to hero within a few months just applying the simple wisdom and techniques mentioned in the amazing book My services are in high demand and have a client waiting list Your life can change to it is just one decision away from you This book of MAGICAL WORDS is going to reveal to you ancient knowledge about how to make things happen in your life the way you want to with simple and proven techniques and steps that work My guarantee to You is that your life will never be the same after reading this book Don't wait any longer and Kick Ass In Your Life and In Business

The Count's Ball Raymond Radiguet, 1929 **Fraud and Corruption in Management of Military Club Systems** United States. Congress. Senate. Committee on Government Operations. Permanent Subcommittee on Investigations, 1969 *The Revised Reports* Frederick Pollock, Robert Campbell, Oliver Augustus Saunders, Arthur Beresford Cane, Joseph Gerald Pease, William Bowstead, 1902 *Object-Oriented, Abstraction, and Data Structures Using Scala, Second Edition* Mark C. Lewis, Lisa L. Lacher, 2017-01-06 Praise for the first edition The well written comprehensive book is aiming to become a de facto reference for the language and its features and capabilities The pace is appropriate for beginners programming concepts are introduced progressively through a range of examples and then used as tools for

building applications in various domains including sophisticated data structures and algorithms Highly recommended
Students of all levels faculty and professionals practitioners D Papamichail University of Miami in CHOICE Magazine Mark
Lewis Introduction to the Art of Programming Using Scala was the first textbook to use Scala for introductory CS courses
Fully revised and expanded the new edition of this popular text has been divided into two books Object Orientation
Abstraction and Data Structures Using Scala Second Edition is intended to be used as a textbook for a second or third
semester course in Computer Science The Scala programming language provides powerful constructs for expressing both
object orientation and abstraction This book provides students with these tools of object orientation to help them structure
solutions to larger more complex problems and to expand on their knowledge of abstraction so that they can make their code
more powerful and flexible The book also illustrates key concepts through the creation of data structures showing how data
structures can be written and the strengths and weaknesses of each one Libraries that provide the functionality needed to do
real programming are also explored in the text including GUIs multithreading and networking The book is filled with end of
chapter projects and exercises and the authors have also posted a number of different supplements on the book website
Video lectures for each chapter in the book are also available on YouTube The videos show construction of code from the
ground up and this type of live coding is invaluable for learning to program as it allows students into the mind of a more
experienced programmer where they can see the thought processes associated with the development of the code About the
Authors Mark Lewis is an Associate Professor at Trinity University He teaches a number of different courses spanning from
first semester introductory courses to advanced seminars His research interests included simulations and modeling
programming languages and numerical modeling of rings around planets with nearby moons Lisa Lacher is an Assistant
Professor at the University of Houston Clear Lake with over 25 years of professional software development experience She
teaches a number of different courses spanning from first semester introductory courses to graduate level courses Her
research interests include Computer Science Education Agile Software Development Human Computer Interaction and
Usability Engineering as well as Measurement and Empirical Software Engineering Varieties of World-making Nathalie
Karagiannis, Peter Wagner, 2007-01-01 Drawn from the elite ranks of sociology law international relations political philosophy
and history this book cuts through polarized rhetoric to examine the global situation It proposes that the contemporary global
network of business politics and culture be viewed from the inter disciplinary perspective of world making *County and
Nobility in Norman Italy* Hervin Fernández Aceves, 2020-07-23 Whilst historians often regard the Norman Kingdom of Sicily
as centralised and administratively advanced County and Nobility in Norman Italy counters this traditional interpretation far
from centralised and streamlined this book reveals how the genesis and social structures of the kingdom were constantly
fraught between the forces of royal power and local aristocracy authority In doing so Hervin Fernandez Aceves sheds
important new light on medieval Italy This book is the result of thorough research conducted on the vast source material for

the history of this fascinating 12th century world Starting with the activities of Norman counts and the configuration of the counties it explores how social control operated in these nodes of regional authority and argues that the Sicilian monarchy relied on the counties and the counts authority to keep the realm united and exercise control *Modern Crochet Style* Lindsey Newns,2021-12-08 Fifteen clever crochet projects from scrunchies to scrap rugs Modern Crochet Style is packed full of crochet makes for you and your home Designer Lindsey Newns of Lottie and Albert has created fifteen different projects to delight and inspire throughout the seasons from luxe scrunchies and woven wallhangings to fruit placemats and leopard print cowls With advice on yarns detailed stitch descriptions and step by step photo instructions the projects are accessible to every crocheter Also includes FAQs *MySQL Cookbook* Paul DuBois,2003 DuBois organizes his cookbook s recipes into sections on the problem the solution stated simply and the solution implemented in code and discussed The implementation and discussion sections are the most valuable as they contain the command sequences code listings and design explanations that can be transferred to outside projects **Beyond Benefit Cost Analysis** Domenico Patassini,Donald Miller,2017-11-30 Illustrated by case studies from Europe North America and the Middle East this book examines how non market values can be identified measured and incorporated into planning evaluation methodologies The traditional means of assessing planning options benefit cost analysis requires that all effects be expressed in monetary terms and this volume offers alternative approaches It presents strategies for accomplishing the major purposes of planning evaluation including the provision of an explicit replicable basis for public assessment in alternative ways Growing demand for public involvement and for accountability in decision making requires better means for accommodating a broad range of concerns in planning evaluation Methodologies examined include effectiveness cost and multicriteria analysis and the book explores how these have been applied in practice in developing special issue plans complex regional development strategies and efforts to analyze the environmental justice implications of major infrastructure projects Use of scenarios and problem structuring methods by stakeholder groups are also explored *Financial Accounting* Paul D.
