Junior Angler Instructor's Guide Theresa Stabo, 2002 *Junior Angler* Theresa Stabo, 2002 *River Republic* Daniel McCool, 2012-08-07 Daniel McCool not only chronicles the history of water development agencies in America and the way in which special interests have abused rather than preserved the country's rivers he also narrates the second brighter act in this ongoing story the surging grassroots movement to bring these rivers back to life and ensure they remain pristine for future generations The culmination of ten years of research and observation McCool's book confirms the surprising news that America's rivers are indeed returning to a healthier free flowing condition The politics of river restoration demonstrates how strong grassroots movements can challenge entrenched powers and win Through passion and dedication ordinary people are reclaiming the American landscape forming a river republic of concerned citizens from all backgrounds and sectors of society As McCool shows the history culture and fate of America is tied to its rivers and their restoration is a microcosm mirroring American beliefs livelihoods and an increasing awareness of what two hundred years of environmental degradation can do McCool profiles the individuals he calls instigators who initiated the fight for these waterways and despite enormous odds

have succeeded in the near impossible task of challenging and changing the status quo Part I of the volume recounts the history of America s relationship to its rivers part II describes how and why Americans parted them out destroying their essence and diminishing their value and part III shows how society can live in harmony with its waterways while restoring their well being and by extension the well being of those who depend on them Sealab Ben Hellwarth,2012-01-10 Sealab tells the story of how the U S Navy program tried to develop the marine equivalent of the space station and why the Navy pulled the plug Hellwarth has interviewed surviving members of the three Sealab experiments in addition to conducting archival research to tell this first comprehensive story about the Sealab program *Virginia Forests Magazine* ,1977
