Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education (RE). It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re-evaluate current approaches in the conceptualisation, curriculum design and delivery of RE in schools in Malawi and Ghana. The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion of non-normative religions where religion is included but marginalized and misrepresented. The book contributes to wider discourse of RE on opportunities as well as complexities of post-confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimisation of the religious other as a consequence of misrepresentation and misclusion. Inspired by Braten's methodology for comparative studies in RE, the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE. This book will be of great interest for academics, scholars and post-graduate students in the fields of RE, African education, educational policy, international education and comparative education. The Education System in Malawi: an Education Country Status Report (CSR) is a detailed analysis of the current status of the education sector in Malawi, the results of which have been validated by the government of Malawi. Its main purpose is to enable decision makers to orient national policy on the basis of a factual diagnosis of the overall education sector and to provide relevant analytical information for the dialogue between the government and development partners. The analysis incorporates data and information from multiple sources such as school administrative surveys by the Ministry of Education, household surveys and a tracer survey created especially for this study. This CSR developed by a multi-ministerial national team supported by UNESCO, P le de Dakar, the World Bank and GTZ specialists updates the previous one drawn up in 2003 and consists of eight chapters including a chapter on higher education. The analysis provides key monitoring and evaluation inputs for the overall education sector particularly under the framework of the implementation of the National Education Sector Plan.
