## MALAY LANGUAGE GUIDE

Malay is spoken by about 14 million people in Malaya, Sumatra, Java and Borneo and is widely used as a trade language throughout the Netherlands East Indies. This Language Guide will enable you to ask directions, buy things or order a meal in the Malay-speaking regions. Knowing a little Malay will also help you get along with the people, for they will naturally be pleased to see a stranger showing enough interest in them to try to speak their language.

The variety of Malay given here (called Low, Basar, or Market Malay) is the everyday language of the ordinary people. The educated people speak a form of the language (called High Malay) which has a more complicated grammar, but they naturally also understand the simpler form of Malay.

There are a number of variations in the way Malay is spoken in different regions. The pronunciation given here, which is that used in Java, will be understood wherever Malay is spoken. If you find yourself in another region, try to speak like the people around you.
