Erica James Seven Great Novels English Edition:

A COMPENDIUM OF CLASSIC AND POSTMODERN NOVEL SUMMARIES Vivian Siahaan, 2019-08-03 This book is comprised of a compendium of summaries from all novels that I have read for almost twelve years Obviously the summaries have been documented on my blog since 2016 and seemingly in my opinion it is better bundled in a book form since the statistic views show that the classic fictions are those among most read so I rose to comply with that demand The purpose for which I devote myself to compose 85 summaries is to provide quick reading for novel readers and students Numerous genres are presented because I am quite conscious those will bequeath you an imaginative horizon As a work of art many of them transcend their expiatory aspects And still more important to us than scientific significance and literary worth is the inspirational impact those novels have on serious readers Finally happy reading and I hope you will find this book useful

Memory and Identity in Canadian Fiction Sharon Selby, 2018-09-14 Covering the works of Canadian authors Alistair Macleod Michael Ondaatje Jane Urquhart Margaret Atwood and Drew Hayden Taylor the author explores how the themes of

memory storytelling and identity develop in their fiction For the narrative voices in these works the past is embedded in the present and a wider cultural history is written over with personal significance The act of storytelling shapes the characters lives letting them rewrite the past and be haunted by it Storytelling becomes an existential act of everyday connection among ordinary people and daily often unrecognized acts of heroism The Culture of the Seven Years' War Frans de Bruyn, Shaun Regan, 2014-04-30 The Seven Years War 1756 1763 was the decisive conflict of the eighteenth century Winston Churchill called it the first world war and the clash which forever changed the course of North American history Yet compared with other momentous conflicts like the Napoleonic Wars or the First World War the cultural impact of the Seven Years War remains woefully understudied The Culture of the Seven Years War is the first collection of essays to take a broad interdisciplinary and multinational approach to this important global conflict Rather than focusing exclusively on political diplomatic or military issues this collection examines the impact of representation identity and conceptions and experiences of empire With essays by notable scholars that address the war's impact in Europe and the Atlantic world this volume is sure to become essential reading for those interested in the relationship between war culture and the arts **Graphic Novels and Comics as World Literature** James Hodapp, 2022-04-07 Graphic narratives are one of the world's great art forms but graphic novels and comics from Europe and the United States dominate scholarly conversations about them Building upon the little extant scholarship on graphic narratives from the Global South this collection moves beyond a narrow Western approach to this quickly expanding field By focusing on texts from the Middle East Africa Latin America and Asia these essays expand the study of graphic narratives to a global scale Graphic Novels and Comics as World Literature is also interested in how these texts engage with fit in with or complicate notions of World Literature The larger theoretical framework of World Literature is joined with the postcolonial decolonial Global South and similar approaches that argue explicitly or implicitly for the viability of non Western graphic narratives on their own terms Ultimately this collection explores the ways that the unique formal qualities of graphic narratives from the Global South intersect with issues facing the study of international literatures such as translation commodification circulation Orientalism and many others **The Readers' Advisory Guide to Genre Fiction** Joyce G. Saricks, 2001 Covering fifteen popular genres each chapter includes a definition of the genre its characteristics and appeal elements such as character development story line and frame and its key authors and subgenres **Motherhood and Postnatal Depression** Carolyn Westall, Pranee Liamputtong, 2011-07-21 Globally postnatal depression PND is a growing public health problem PND affects 10 to 15% of women in Western society It is caused by a combination of biological psychological and social factors Two models have attempted to define and explain PND the biomedical and the sociological models The traditional biomedical model views PND as a medical condition which implies there is individual pathology and abnormality Whilst the biomedical model has been the dominant model in treating PND it has been criticized by feminist sociologists and psychologists for its rigidity in defining and explaining PND In contrast the

psychosocial model of health acknowledges the biological factors that impact on emotional well being but places more emphasis on the personal and social factors that impact on emotional well being but places more emphasis on the personal and social factors that contribute to depressive symptoms such as gender poverty social disadvantage and social class The central argument throughout this book is the importance of support before and after the birth for women s emotional well being This book will also include women s journeys through pregnancy childbirth motherhood postnatal depression and resolution To date literature has focused on women s lived experiences of PND rather than their personal journeys through pregnancy childbirth and early motherhood Additionally the adjustment to fatherhood has received less attention For example little is known about the impact of postnatal depression on the partner what support partners offer when women with the intention to fill the gap in knowledge of cultural and social issues relating to pregnancy childbirth and motherhood for woman who were diagnosed with and had resolved PND
