

FLORIDA DEPARTMENT OF TRANSPORTATION AVIATION OFFICE

AIRFIELD PAVEMENT INSPECTION REFERENCE MANUAL

March 2010

STATEWIDE PAVEMENT MANAGEMENT PROGRAM

PREFACE

This Airfield Pavement Inspection Reference Manual has been updated with the latest information from the FAA and the ASTM D5340-04. Additional distress pictures were added for clarity and easy of recognition for inspectors while on the field. In 1995, the Congress of the United States mandated that the Federal Aviation Administration (FAA) require, as a condition of Grant in Aid that airports should be prepared to present documentation of a Pavement Management Program (PMP) for airfield pavement that has been constructed, reconstructed, or repaired with Federal assistance. This PMP Airfield Pavement Inspection Manual has been developed by the Florida Department of Transportation Central Aviation Office to assist Florida airport owner/operators comply with the FAA airfield pavement inspection requirements. Periodic and systematic airfield pavement inspections serve to enhance and extend the useful life and provide for the safe use of various airfield pavements throughout the airport.

The Pavement Condition Index (PCI) method of documenting pavement conditions is the preferred choice of the FAA and was developed by the United States Army Corps of Engineers in the 1970s. This index allows for a systematic, standardized and objective assessment of pavement condition based on visual examination.
