## Abstract

**Objective:** To investigate the effect of pregnancy management on pregnancy outcomes of patients with Gestational Diabetes Mellitus (GDM). **Methods:** A total of 334 patients with GDM diagnosed in a tertiary hospital in Xinjiang from November 1, 2017 to October 31, 2018 and from November 1, 2020 to October 31, 2021 were collected as subjects. According to the inclusion and exclusion criteria, patients were selected as the control group (141 cases) in 2017 and the management group (193 cases) in 2020. The control group was treated with conventional diagnosis and treatment methods, and the management group was treated with pregnancy health care in strict accordance with the established pregnancy management methods. The influencing factors of GDM were analyzed by single factor and multiple factor logistic regression analysis. **Results:** Through pregnancy management, the amount of postpartum hemorrhage in the management group was less than that in the control group, and the incidence of premature rupture of membranes was lower than that in the control group ( $P < 0.05$ ). The neonatal weight of the management group was lower than that of the control group, and the incidence of premature delivery, amniotic fluid pollution, dystocia and neonatal hypoglycemia were all lower than those of the control group ( $P < 0.05$ ). Logistic regression analysis was used to analyze the influence of pregnancy management strategy on the pregnancy outcome of GDM patients. The results showed that pregnancy management strategy could reduce the probability of postpartum hemorrhage, premature rupture of membranes, premature delivery, macrosomia, perinatal hypoglycemia and cesarean section. **Conclusion:** The pregnancy management strategies formulated in this study (diet therapy, exercise therapy, insulin therapy, blood glucose monitoring, perinatal monitoring) can significantly reduce the incidence of complications of pregnant women and newborns. The application of pregnancy management in the clinical treatment of GDM patients can effectively help patients improve their pregnancy outcomes and reduce the incidence of adverse pregnancy outcomes of pregnant women and newborns, which is worthy of clinical application and promotion.

**Obstetrics: Prepare for the MRCOG** Philip N Baker, Alec S. McEwan, Sabaratnam Arulkumaran, Shreelata T Datta, Tahir A. Mahmood, Fiona Reid, Mahmood I Shafi, Catherine Aiken, 2015-10-01 Obstetrics is a new e book presenting a collection of key articles from Obstetrics Gynaecology and Reproductive Medicine mapped by module to the MRCOG Part 2 exam As well as mapping to the MRCOG the Inkling version of this e book also enables anyone with a short term interest in a specific area to buy individual articles at a price point which will give affordable access to all readers from medical students to GPs and practitioners in related areas such as genitourinary medicine Inkling's app like quality of user experience on mobiles tablets and laptops will be an added bonus for learning on the move As well as being vital preparation for the MRCOG exam this material is also ideal for life long learning CPD and indeed preparation for all post graduate exams in obstetrics not just MRCOG including especially the new EBCOG exam in Europe and local college exams in India the Middle East and Africa The parent journal is a rolling continuously updated review of obstetrics over a three year cycle covering all the important topics for the MRCOG Part 2 exam Its Editorial Board comprises some of Europe's most influential specialists and includes among others the current Presidents of FIGO and EBCOG as well as the past President of the Royal College of Obstetrics and Gynaecology The journal's articles are refreshed updated augmented or replaced as appropriate each time the subject is due for revision to provide a concise overview of knowledge and practice core to the curriculum Each article is written by invited experts and overseen by the relevant subject specialist on the Board There is a trainee on the Board too ensuring relevance and accessibility to exam candidates Inkling version gives a highly attractive app like user experience enabling much easier more pleasurable use of the content on smartphones tablets and laptops for learning on the move Affordable chapter level

purchase on Inkling version opens out the journal's authority and expertise to all interested users medical students family clinicians genitourinary specialists and all other related specialties Derived from top notch authoritative content from the OGRM journal Overseen by a world class Editorial Board of experts which includes the Presidents of FIGO EBCOG and past President of the RCOG A trainee representative on the Editorial Board ensures relevance and accessibility for exam candidates Relevant to all post graduate exams including the new EBCOG exam and college exams in India the Middle East and Africa Highly appropriate content for life long learning personal development portfolios and CPD

*Integrating noncommunicable diseases into antenatal care in Cameroon: A triangulated qualitative analysis* Carrie Ngongo, Eugene Yeika, Erica L. Kocher, 2024-01-18 Noncommunicable diseases NCDs have important implications for pregnancy outcomes and the subsequent health of women and their children The aim of this study is to determine the status of NCD and maternal health program integration identify barriers to integration and explore what would be required to deepen integration of NCD care into antenatal care in Cameroon We used two methods of data collection and synthesis a desk review of policy documents and protocols and a series of key informant interviews with health system experts and managers working in public private and faith based health facilities at central regional and district levels Although screening for blood glucose and blood pressure occurs during antenatal care post diagnosis management is not well integrated and often requires referral to specialists in higher level health facilities Key barriers to integration include lack of guidelines for the management of NCDs financial constraints for facilities and patients and shortages of health workers medications and supplies for laboratory investigations Further integration of services for NCDs during pregnancy will require national guidelines backed up by system wide strengthening of health information systems insurance coverage supply chain management and human resource capacity particularly in remote areas

Social Transformation - Digital Way Jyotsna Kumar Mandal, Devadatta Sinha, 2018-08-23 This book constitutes the refereed proceedings of the 52nd Annual Convention of the Computer Society of India CSI 2017 held in Kolkata India in January 2018 The 59 revised papers presented were carefully reviewed and selected from 157 submissions The theme of CSI 2017 Social Transformation Digital Way was selected to highlight the importance of technology for both central and state governments at their respective levels to achieve doorstep connectivity with its citizens The papers are organized in the following topical sections Signal processing microwave and communication engineering circuits and systems data science and data analytics bio computing social computing mobile nano quantum computing data mining security and forensics digital image processing and computational intelligence
