Godless Morality Richard Holloway, 2009-08-06 The use of God in any moral debate is so problematic as to be almost worthless We can argue whether this or that alleged claim emanated from God but surely it is better to leave God out of the argument altogether and find strong human reasons for supporting the systems that we advocate Godless Morality is a refreshing courageous and human centred justification for contemporary morality

Sin and Forgiveness Kay Carmichael, 2019-09-16 Originally published in 2003 Western attitudes to crime were in the past rooted in concepts of sin and therefore of hopes for redemption and forgiveness So what happens to offenders and society as a whole in a world where people no longer talk of sin but of evil If hopes of redemption go too will revenge take the place of forgiveness Kay Carmichael explores these dilemmas in this topical and provocative book She traces the stories of Myra Hindley Mary Bell Sarah Payne James Bulger and his killers comparing public responses to such crimes in various Western countries Art and literature are examined for the light they throw on the evolution of our ideas about sin and forgiveness from Rembrandt to Nathaniel Hawthorne Samuel Becket Dali and writings inspired by the Holocaust Turning to our own day Carmichael discusses the emergence of structural sins or iniquities in which we may all find ourselves involved poverty slavery violence and war are her themes Her analysis leaves her sceptical about many contemporary appeals for forgiveness but hopeful about ideas of restorative justice

Understanding Leadership Libby Nicholas, John West-Burnham, 2016-05-23 Are current leadership roles and relationships appropriate in a rapidly changing world Do we need to rethink key assumptions about leaders and leadership Are you confident about the appropriateness and effectiveness of your chosen leadership styles and behaviours These are questions facing leaders today and Understanding Leadership by Libby Nicholas and John West Burnham can help find the answers with an approach that is neither normative nor prescriptive but rather exploratory and developmental Applying research and case studies from inside and outside the educational canon Libby and John challenge prevailing orthodoxies and invite readers to reflect on their personal understanding as the basis for translating theory into practice All leadership behaviour is based on a number of fundamental personal assumptions about the nature of human relationships and the basis on which human organisations function Understanding Leadership helps leaders make their implicit understanding explicit and so informs and aids development of professional practice Effective leaders develop and grow by understanding their personal mindscape the mental map with which they make sense of the world and developing it through reflecting exploring testing and questioning The usefulness of any map is determined partly by its scale and partly by the information it depicts As leaders develop so their personal mental maps become more sophisticated and more detailed The purpose of this book is to help leaders understand and refine their maps through reflective self awareness facilitating the journey to understanding leadership Leadership is fundamentally concerned with the complexity of human relationships performance engagement and motivation leadership has to be seen as relational Leadership involves emotional engagement

and sophisticated interpersonal relationships The idea of a hero leader single handedly transforming a school is perhaps not a particularly useful or relevant vision of effective leadership for today Libby and John encourage leaders to arrive at their own working definition of effective leadership and analyse how the myriad of carefully examined models and case studies might apply in their own school context The eight chapters are underpinned by the following themes questions and points of reflection why leadership creating a preferred future leading change leadership as a moral activity learning as the core purpose of school leadership leading through collaboration and cooperation building capacity sharing leadership leading through relationships and leadership and personal resilience High performance effective leadership can be truly transformational Leadership cannot be taught it has to be learnt It could be argued that school leadership is primarily concerned with learning the leader's own and facilitating that of the children Questioning interrogating and analysing ideas and practice are fundamental to that learning process Libby Nicholas and John West Burnham prompt leaders to do just that Suitable for school leaders at all levels head teachers principals assistant and deputy heads middle leaders aspiring to senior roles and in all educational settings The book will also be of interest to education system leaders chief education officers and directors of education and indeed anyone concerned with developing effective school leadership for example governors and trustees CPD trainers coaches and mentors
