*Your Boss Is an Algorithm* Antonio Aloisi, Valerio De Stefano, 2022-07-14 What effect do robots algorithms and online platforms have on the world of work Using case studies and examples from across the EU the UK and the US this book provides a compass to navigate this technological transformation as well as the regulatory options available and proposes a new map for the era of radical digital advancements From platform work to the gig economy and the impact of artificial intelligence algorithmic management and digital surveillance on workplaces technology has overwhelming consequences for everyone's lives reshaping the labour market and straining social institutions Contrary to preliminary analyses forecasting the threat of human work obsolescence the book demonstrates that digital tools are more likely to replace managerial roles and intensify organisational processes in workplaces rather than opening the way for mass job displacement Can flexibility and protection be reconciled so that legal frameworks uphold innovation How can we address the pervasive power of AI enabled monitoring How likely is it that the gig economy model will emerge as a new organisational paradigm across sectors And what can social partners and political players do to adopt effective regulation Technology is never neutral It can and must be governed to ensure that progress favours the many Digital transformation can be an essential ally from the warehouse to the office but it must be tested in terms of social and political sustainability not only through the lenses of economic convenience *Your Boss Is an Algorithm* offers a guide to explore these new scenarios their promises and perils

**Europe and Central Asia Economic Update, Fall 2022** World Bank, 2022-10-04

Globalization demographic trends the green transition and technological innovations are transforming labor markets in Europe and Central Asia altering their institutional and contractual arrangements and creating disparities and vulnerabilities in the labor force Systemic risks economic health or climate related are also playing an increased role in driving poverty and vulnerability Social protection systems in Europe and Central Asia will need to be reformed to address these challenges and provide adequate protection to workers and families Countries in the region responded to the COVID 19 pandemic by implementing social protection packages with a substantial contribution of job protection policies Analysis of the impact of these policies suggests that while job protection policies may have preserved employment in the short run this may have come at the expense of efficiency and growth In the long run income protection policies may be better at addressing the needs of vulnerable groups as labor markets continue evolving A policy package that combines a guaranteed minimum income with labor market policies that facilitate job transitions can best help countries address long term challenges
