QUESTION 1: SOURCE-BASED SECTION

THE COLD WAR IN EUROPE

- Before the end of World War II, the Western European countries and the Soviet Union began to grow suspicious of each other.
- The lack of trust and co-operation between the USA and USSR in particular, led to what is commonly referred to as the Cold War.

What was the Cold War?

- The Cold War was a series of mounting tensions between the two super-powers, each representing differing ideologies.
- On the one hand the USA symbolised a capitalist, democratic system and the USSR or Russia, stood for the principles of communism and a one-party system of government.
- The struggles between the two sides, the East vs the West, was an indirect conflict and usually at considerable risk to global peace.
- At times, the cold war became 'warm' and threatened to develop into full scale, 'hot' war - but one of the two powers always backed down at the last minute and thus the cold war continued for a lengthy period.

Origins of the Cold War

- After World War II, the Allied Powers had several conferences to discuss the future of Germany and the reconstruction of Europe.
- In February 1945, the Yalta Conference was held in the Soviet Union and the following was decided upon by the Big Three (Russia, USA, and Britain):
 - **That Germany be divided into four Zones of occupation - Russian, American, British and French.**
 - **Berlin, the capital of Germany, which was situated in the Russian Zone, be divided into four sections, one for each of the 4 major**

focuses on the representation of the practitioner of the occult in mid to late nineteenth century British literature. The occult was a source of emotional support and scientific curiosity during this time of change and uncertainty because it seemed to offer answers to both spiritual and scientific questions through measurable albeit unconventional means. However, the occult was also viewed as a threat to British society, an assault on its values and a fundamental danger to emerging scientific enterprise. By examining the ways in which the occult and its practitioners are represented in British novels from 1850 to 1900, this book traces the ways that the novels commented on, participated in, and contributed to the racialization of the occult that occurred throughout the nineteenth century in Britain. The representations of the occult characters in these novels interpreted and transmitted the social, political, economic, and scientific discourses about race in the nineteenth century to the reading public as well as participating in the discourse surrounding race and the occult.

The Ecological Community Roger S. Gottlieb, 2014-01-02. The Ecological Community offers important and previously unexplored responses to the environmental crisis. The premise of this volume, writes editor Roger Gottlieb, is that the environmental crisis challenges the presuppositions of and creates a rich field of creative work in philosophy, politics, and moral theory. These eighteen essays are fresh and compelling interrogations of the existing wisdom in a host of areas including liberalism, communicative ethics, rights theory, and environmental philosophy itself. Sovereignty: Seventeenth-Century England and the Making of the Modern Political Imaginary Feisal G. Mohamed, 2020-02-06. This book argues that sovereignty is the first-order question of political order and that seventeenth-century England provides an important case study in the roots of its modern iterations. It offers fresh readings of Thomas Hobbes, John Milton, and Andrew Marvell, as well as lesser-known figures and literary texts. In addition to political philosophy and literary studies, it also takes account of the period's legal history, exploring the exercise of the crown's feudal rights in the Court of Wards and Liveries, debates over habeas rights, and contests of various courts over jurisdiction. Theorizing sovereignty in a way that points forward to later modernity, the book also offers a sustained critique of the writings of Carl Schmitt, the twentieth century's most influential if also most controversial thinker on this topic.
