

8th Grade, World History

Overview

The teacher who wrote this Student Growth Objective teaches 8th-grade World History in a traditional public school.

Strengths: a) By prioritizing standards in a thoughtful way, the teacher is able to focus instruction and assessment for this SOG on students' critical for student success. b) The teacher has used a variety of measures to determine student starting points.

Improvements: a) The scoring plan might be too restrictive in the ranges provided. b) Indicating how to group a student who does not neatly fall into one of the predetermined groups would improve this SOG.

Name	School	Grade	Course/Subject	Number of Students	Interval of Instruction
		8	World History	140/341	October 15–April 20
The teacher clearly states her intent to capture a significant portion of the school year in this SOG. This interval allows the teacher to use the first 6 weeks of school to disseminate data to help determine course preponderant and set solid starting points. This SOG includes all of her students.					
Standards, Rationale, and Assessment Method Name the content standards covered, state the rationale for how these standards are critical for the next level of the subject, other academic disciplines, and/or life/career/transfer. Name and briefly describe the format of the assessment method.					
NECCCS: 8.2 World History/Global Studies: "Students should acquire the knowledge and skills to think analytically and systematically about how past interactions of people, cultures, and the environment affect issues across time and cultures. Such knowledge and skills enable students to make informed decisions as socially and ethically responsible world citizens in the 21st century" (NECCCS, 2000). The course content and habits of mind will improve students' understanding of major historical events and build the skills necessary for future courses in high school and college. The standards selected repeat in strands throughout the course.

foundational tenets of the first edition have served social studies professionals well over the past 25 years given the growth of social issues scholarship showcased in this new edition. Notable is the re framing and presentation here of scholarship through a social justice lens. I appreciate the offering of unique tools on an array of specific critical topics that fill gaps in our pedagogical content knowledge. This volume will sit right alongside my dog eared 1996 edition and fortify many methods courses theses and dissertations to come. Sincere thanks to the editor and authors for what I am certain will be an enduring catalyzing contribution.

Nancy C Patterson, Professor of Education, Social Studies Content Area Coordinator, Bowling Green State University

The Handbook on Teaching Social Issues is a tool that every informed social studies educator should have in their instructional repertoire. Helping students understand how to investigate and take action against problems is essential to developing a better world. The articles in this handbook provide explanations and reasonings behind issues centered education as well as strategies to employ at every age level of learning. I look forward to using this edition with the K 12 social studies teachers in my district in order to better prepare our students for future learning and living.

Kelli Hutt, Social Studies Curriculum Facilitator, Dallas Center Grimes CSD, Grimes, Iowa

Ron Evans has chosen an appropriate time to create a companion publication to the first Handbook on Teaching Social Issues published in 1996. During the last few years, social studies teachers have been confronted by student inquiries on a plethora of historical and contemporary issues that implores for the implementation of an interdisciplinary approach to the teaching of anthropology, economics, geography, government, history, sociology, and psychology in order for students to make sense of the world around them and develop their own voices. This demands a student centered focus in the classroom where problematic questions must be addressed and investigated in depth in order to increase social understanding and active participation toward social progress. This volume provides crucial upgrades to the original handbook including a greater emphasis on teaching issues in the elementary grades, the inclusion of issues pertaining to human rights, genocide, and sustainability to be addressed in the secondary grades, and addressing issues related to disabilities.

Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria

Anders Jönsson, Frans Prins, 2019-04-03

In many schools and higher education institutions, it has become common practice to share assessment criteria with students. Sometimes it is required for accountability purposes; at other times, criteria are used as a means to communicate expectations to students. However, the idea that explicit assessment criteria should be shared with students has been contested. On the one hand, research has shown that explicit criteria may positively affect student performance, reduce their anxiety, as well as support students' use of self-regulated learning strategies. On the other hand, there are fears that explicit criteria may have a restraining influence on students' learning, as well as limiting their autonomy and creativity. There are also indications of students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria. Taken together, it is not fully understood

under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions

Student-Led Assessment

Starr Sackstein, 2024-01-03 The single greatest authority on student learning is the student doing the learning but the right structures must be in place for students voices to be clearly heard and truly valued Conventional formative and summative assessment are most often conducted through one size fits all quizzes and tests that yield narrow predetermined categories of data about students academic progress But if we want a truly accurate look at what how and to what extent students are learning who better to consult than the obvious experts on the matter the students themselves In this lively and comprehensive guide veteran teacher and author Starr Sackstein provides the tools needed to help students compile and present evidence of learning through portfolios and student led conferences from templates and rubrics to personal testimonials reflection questions and activities The book features Forms applicable across grade levels and content areas for unpacking standards co constructing success criteria with students evaluating current classroom practices and more Real life perspectives and scenarios from educators in the field who have embraced portfolios and student led conferences over standardized tests and letter grades Practical experience based guidance for building classroom and schoolwide learning cultures that promote both learner agency and academic achievement The resources recommendations and reflections in Student Led Assessment allow educators at all levels to develop systems and protocols for ensuring student ownership of and pride in their own hard won achievement
