**Capitalism in Chaos** Máté Rigó,2022-08-15 Capitalism in Chaos explores an often overlooked consequence and paradox of the First World War the prosperity of business elites and bankers in service of the war effort during the destruction of capital and wealth by belligerent armies This study of business life amid war and massive geopolitical changes follows industrialists and policymakers in Central Europe as the region became crucially important for German and subsequently French plans of economic and geopolitical expansion in the late nineteenth and early twentieth centuries Based on extensive research in sixteen archives five languages and four states M t Rig demonstrates that wartime destruction and the birth of war millionaires were two sides of the same coin Despite the recent centenaries of the Great War and the Versailles peace treaties knowledge of the overall impact of war and border changes on business life remains sporadic based on scant statistics and misleading national foci Consequently most histories remain wedded to the viewpoint of national governments and commercial connections across national borders Capitalism in Chaos changes the static historical perspective by presenting Europe s East as the economic engine of the continent Rig accomplishes this paradigm shift by focusing on both supranational regions including East Central and Western Europe as well as the eastern and western peripheries of Central Europe Alsace Lorraine and Transylvania from the 1870s until the 1920s As a result

Capitalism in Chaos offers a concrete lively history of economics during major world crises with a contemporary consciousness toward inequality and disparity during a time of collapse      **The Elgar Companion to Social Economics, Second Edition** John B. **CURRICULUM REFORM IN PAKISTAN** Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country's problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don't they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why

do the ulama which literally means those who possess knowledge ilm particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University
