Want Not Jonathan Miles, 2013-11-05 A shrewd funny and sometimes devastating novel about the things we desire and the things we throw away Entertainment Weekly A New York Times Notable Book A highly inventive corrosively funny story of our times Want Not exposes three different worlds in various states of disrepair a young freegan couple living off the grid in New York City a once prominent

linguist sacked at midlife by the dissolution of his marriage and his father's losing battle with Alzheimer's and a self-made debt-collecting magnate whose brute talent for squeezing money out of unlikely places has yielded him a royal existence trophy wife included. Want and desire propel these characters forward toward something anything more until their worlds collide briefly randomly yet irrevocably in a shattering ending that will haunt readers long after the last page is turned. Its pleasures are endless. Joshua Ferris, author of *Then We Came to the End*. Terrific. The novel may begin with prickly satire; it may dig deep into America's disposable lifestyle, but it ultimately pivots to scenes of surprising tenderness. A novel to hoard.

The Washington Post Leaps nimbly from topic to topic from freeganism to conspicuous consumption from Manhattan's Alphabet City to residential New Jersey to the backwoods of Tennessee and from neighbors with nothing but geographical location in common to sisters who share nothing but blood. Sitting down with *Want Not* is like finding yourself opposite the most interesting person at a dinner party. It pulls you in immediately; makes you shake your head in wonder and delight at your new companion's wit, originality, and compelling turns of phrase; and best of all, surprises you into laughter. Pittsburgh Post-Gazette For readers who relish extravagant language, scathing wit, and philosophical heft, *Want Not* wastes nothing. Kirkus Reviews starred review

Hypernomics Doug Howarth, 2024-01-31 You've Never Seen What You've Always Needed to Know Until Now. Invisible forces are at work. They push and shove on everything you buy or sell. They affect every concept you want to take to market, all the suppliers you'll deal with, and every customer you'll ever see. To be successful, you need to understand them. See them in detail in ways not possible with other methods. Hypernomics: Using Hidden Dimensions to Solve Unseen Problems discovers that markets behave according to previously unknown laws set by the buyers and sellers within them. It reveals those rules and how to detect, describe, and deploy them to your advantage. It doesn't change economics so much as reveal it. It's like a microscope looking at pond water, a telescope tilted to the sky, sonar scanning the bottom of the ocean. Hypernomics lets you see into markets in ways you can't with the unaided eye. Sailors never navigate without a map. You shouldn't either, since your ship could wind up on the rocks. Hypernomics gives you the means to create market maps that show you where they have openings and how to fill them by giving customers what they want, don't have, and can afford. It finds their thresholds and limits and responses to every possible feature in any

product you can offer The interactions Hypernomics describes have been with us since the dawn of humanity Now you can finally see them and enjoy the advantages your competitors do not have Validated by 13 published papers multiple awards a patent and customers such as NASA Lockheed Martin Virgin Galactic and a restaurant down the street only Hypernomics gives you the ability to solve problems as varied as How could a restaurant increase revenue by 25% by rearranging seating How do you find describe and capitalize on open spaces in your market What happens when an NFL player decreases his forty yard dash time by a quarter of a second If you tried to exceed a market s limitations how could you lose 1B How do markets change over time Know what you need to Discover Hypernomics *Alison's Automotive Repair Manual* Brad Barkley,2004-02-11 A widow in her mid thirties Alison has been mourning for two years Now living in small town West Virginia with her sister Sarah and brother in law Bill Alison is unable to move on with her life Finally she promises Sarah and Bill that she will start over once she restores the abandoned nearly ruined 1976 Corvette she found rusting in the garage and immediately loved Unfortunately Alison doesn t know the first thing about cars and the fact that the townspeople with the exception of a cute demolition man find a woman messing with automotive parts bewildering doesn t help With beautiful frankness and surprising hilarity Brad Barkley tells of a gutsy woman s attempts to overcome loss and fit into a close knit community in a triumphant look at grief love loss and moving on *Official Manual of the State of Missouri* Missouri.
