One method of measuring the rate of transpiration is to record how long it takes a red stain to travel up the xylem tissue in a celery stalk that still has its leaves attached.

Plan an investigation to determine the effect of humidity on the rate of movement of water through leafy twigs.

- test at different humidities: 0%, 20%, 40%, 60%, 80%.
- control: temperature, wind speed, light intensity, carbon dioxide levels, leaf surface area.
- measure distance moved by the stain up the stem in 10 minutes
- divide the distance moved by time taken to get rates to compare
- repeat 5 times at each humidity level
- wear gloves when working with the stem

**Some Developments in Research in Science and Mathematics in Sub-Saharan Africa** Lorna Holtman, 2008 Much attention in late developing

countries is given to providing access to studies which allow school leavers to enter science and technology related careers. These programmes are driven by the belief that graduates will then substantially contribute to the developmental needs of their countries. But is providing access to institutions enough? Students in developing countries often come from school environments lacking in resources: human, physical and financial. This book in a number of chapters reviews research related to the crucial dimension of epistemological access to the disciplines of import which students need as much as institutional access in order to improve their chances of success. A significant feature of this collection's research studies is that their empirical bases are highly localised, covering areas such as research methods, access, curriculum, instruction and assessment and the relevance of science and mathematics education in Zimbabwe, Uganda, Swaziland, South Africa, Namibia, Malawi, Ghana and Lesotho. This volume provides invaluable insights and will be of relevance to researchers, policy makers and lecturers interested in these research outcomes in Sub-Saharan Africa. It is the outcome of a doctoral research capacity development project: the Graduate Studies in Science, Mathematics and Technology Education GRASSMATE. *Cambridge IGCSE® Biology Practical Workbook* Matthew Broderick, 2016-01-04.
