Le Christ Philosophe:

Le Christ philosophe Frédéric Lenoir, 2007 Pourquoi la démocratie et les droits de l'homme sont-ils nés en Occident plutôt qu'en Inde ou en Chine ou dans l'Empire ottoman ? Parce que l'Occident a été chrétien, répond l'auteur, et que le christianisme n'est pas seulement une religion. Le Christ enseigne une éthique porteuse d'universalité. L'auteur raconte le destin paradoxal du christianisme.

L'art en croix Jacques de Landsberg, 2001 *Studies in Rabbinic Judaism and Early Christianity* Dan Jaffé, 2010-07-01 The question of the origins of Christianity is a theme still discussed in historical research. This book investigates the relations between the Rabbinic Judaism and the Primitive Christianity. It studies the factors of influence, the polemics in the texts and factors of mutual conceptions between two new movements: Rabbinical Judaism and Primitive Christianity. Finally, it offers an analysis of the perception of Christianity in the corpus of talmudic literature. La question des origines du christianisme est un thème encore débattu par la recherche historique. Cet ouvrage choisit d'explorer les relations entre le judaïsme rabbinique et le christianisme primitif. Il étudie les facteurs d'influence, les polémiques dont témoignent les textes et les emprunts réciproques entre les deux mouvements naissant le judaïsme rabbinique et le christianisme primitif. Il propose également une analyse sur la perception du christianisme dans l'œuvre dans la littérature talmudique.

Can the West Be Converted? Jean-Georges Gantenbein, 2021-11-04 Rather than reconsidering contemporary culture in light of secularization, much of the Western church operates with a degree of nostalgia. She has yet to fully embrace prospective innovative models for what form her task might take in some of Christianity's historic heartlands. Amidst rapidly declining church membership, contextualizing the Gospel for the contemporary West is an urgent task for churches and Christians living in this context. This book seeks an interdisciplinary, international and ecumenical response to this challenge, uniting historical, sociological, theological and missiological perspectives. Benefiting from recent studies in sociology of religion, Dr Gantenbein offers several detailed contextual case studies before establishing correlations between Western cultural religious characteristics and corresponding theological affirmations. This study includes several unexpected dimensions, including the development of a theological aesthetic in tension with the typically Word-alone tradition of Protestantism, a constructive reading of the book of Revelation as a source for contemporary aesthetic missiology, reflections on a soteriology for the postmodern era and a proposal for an anonymous ecclesiology within a European context where churches are viewed with growing suspicion. With rare perspicacity, Gantenbein's study creatively calls churches to apply renewed intellectual rigor in faithfulness to their common purpose.

Global Catholicism, Tolerance and the Open Society Arno Tausch, Stanislaw Obirek, 2019-09-03 This book systematically assesses the political and social values of the more than 1.3 billion Catholics around the globe, by far the largest denomination of Western Christianity. Based on an extensive analysis of data from the World Values Survey and other global opinion surveys, the book sheds new light on the value systems and opinions of Roman Catholics. The authors highlight core problems and challenges the Church is currently facing in adapting

to the modern world including Catholic anti-Semitism religious and sexual tolerance and opinions towards democracy while also offering an anthropological reflection on how well the Church is adapting or failing to adapt to the requirements of an open society

Religious Perspectives on Human Vulnerability in Bioethics Joseph Tham, Alberto Garcia, Gonzalo Miranda, 2014-07-07 With the advance of biomedicine certain individuals and groups are vulnerable because of their incapacities to defend themselves The International Bioethics Committee as a UNESCO working group has for the last several years dedicated to deepen this principle of human vulnerability and personal integrity This book serves to supplement this effort with a religious perspective given a great number of the world's population is affiliated with some religious traditions While there is diversity within each of these traditions all of them carry in them the mission to protect the weak the underprivileged and the poor Thus here presented is a collection of papers written by bioethics experts from six major world religions Buddhism Christianity Confucianism Hinduism Islam and Judaism who were gathered to discuss the meaning and implications of the principle of vulnerability in their respective traditions

Slavoj Žižek and Christianity Sotiris Mitralaxis, Dionysios Skliris, 2018-07-18 Slavoj Žižek's critical engagement with Christian theology goes much further than his seminal *The Fragile Absolute* 2000 or his *The Puppet and the Dwarf* 2003 or even his discussion with noted theologian John Milbank in *The Monstrosity of Christ* 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of Žižek's thought with either philosophy and cultural theory or

Christian theology serving as starting points of enquiry Written by a panel of international contributors each chapter teases out various strands of i ek s thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage i ek s work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re reading of i ek s relationship to Christianity As such scholars of theology the philosophy of religion and i ek more generally will all find this book to be of great interest *The SAGE Handbook of Research in International Education* Mary
