

The background of the cover is a high-angle, night-time aerial photograph of a city, likely Singapore, showing illuminated skyscrapers and a dense urban grid. Overlaid on this is a large, semi-transparent globe that glows with a rainbow-like gradient from orange at the top to blue at the bottom. Several colorful location pins (purple, blue, green, red, and teal) are scattered around the globe, some pointing towards it. The overall aesthetic is modern and global.

Proven Solutions for Improving Supply Chain Performance C. Carl Pegels, 2005-06-01 Proven Solutions for Improving Supply Chain

Performance is a collection of about 175 descriptions of scientific management studies in the management of supply chains Each one of the descriptions of the scientific studies is presented in readable and understandable form for individuals who probably have not had the statistical and scientific education and training to fully understand the underlying studies The book is significantly different from the popular management literature which is generally based on armchair theories that have little basis on fact and seldom have been scientifically verified Although the book is targeted for the supply chain manager administrator it can also be used as a supplementary reader in such courses as Operations Management Service Systems Management Manufacturing Management Purchasing Management and of course in Supply Chain Management courses Trends in Employment and Output Per Person in the Western Australian Economy Ray Petridis, 1991

Technology Management Norma Harrison, Danny Samson, 2002 A broad and diverse perspective is presented from various industries throughout the world This approach provides students better understanding of key success factors for implementation of technology projects Students see first hand how to implement technological change by examining the processes routines organizational structure cultural and leadership factors that relate to introducing and implementing successful new technology The most exciting and beneficial aspect of this text is its authorship the cases were written by leading experts from top institutions around the world including USA UK Germany Japan Korea Australia and Canada Pub desc
