Manual Focus Ring:

The Digital Photography Book, Part 3 Scott Kelby, 2009-07-21 Scott Kelby author of The Digital Photography Book volume 1 the world's best selling digital photography book of all time is back with a follow up to his volume 2 smash best seller with an entirely new book that picks up right where he left off It's even more of that Ah ha so that's how they do it straight to the point skip the techno jargon stuff you can really use today to make your shots even better This book truly has a brilliant premise and here's how Scott describes it If you and I were out on a shoot and you asked me Hey Scott I want the light for this portrait to look really soft and flattering How far back should I put this softbox I wouldn't give you a lecture about lighting ratios or flash modifiers In real life I'd just turn to you and say Move it in as close to your subject as you possibly can without it actually showing up in the shot Well that's what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I've learned just like I would with a friend without all the technical explanations and techie photo speak Each page covers a single concept on how to make your photography better Every time you turn the page you'll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you're tired of taking shots that look okay and if you're tired of looking in photography magazines and thinking Why don't my shots look like that then this is the book for you This isn't a book of theory full of confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With nearly 200 more of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time
