Canadian Multiculturalism @50 Augie Fleras, 2021-07-26 Choice Award 2022 Outstanding Academic Title The multiculturalization of Canada has catapulted it into the front ranks of countries in advancing a principled diversity governance Fifty years after the inception of a multicultural governance model that seemingly works and is relatively popular Canada remains one of the few countries in the world to believe in multiculturalism Yet the irony is inescapable Notwithstanding its lofty status as a Canadian icon and an aspirational ideal an official multiculturalism remains misunderstood both in Canada and abroad in terms of what it means how it works and for whom and why it endures If anything as the book explains the idea of multiculturalism remains shrouded in the conceptual fog of a riddle wrapped in a mystery inside an enigma An interplay of polite fictions that mask inconvenient truths puts the onus on deconstructing Canadian multiculturalism by conceptualizing strengths including a probe into why multiculturalism ostensibly works in Canada but rarely elsewhere analyzing weaknesses critically assessing its worth and envisioning its future in responding to the new realities and demands of a post multicultural world That Canada s multiculturalism remains a work in progress albeit one with innovative possibilities provides a fitting tribute

Ownership and Governance of Companies Jonathan Michie,Vishnu Padayachee,2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics
