The Reading/writing Connection Carol Booth Olson, 2007 This is an especially well-researched and documented text. The author's voice is one that is knowledgeable yet does not intend to intimidate. She speaks to her audience as a dedicated professional. To professional I could only hope that my students would read and retain her words of wisdom. Anna L. Bolling, California State University Stanislaus. I haven't seen any books that come close to what Carol Olson has developed. Harry Noden, Kent State University. The illustrations and scanned-in documents make Booth Olson's book readable, interesting, relevant, and real-life. These visuals from actual students help transform her ideas from theory into practice. Kathy Bussert Webb, The University of Texas at Brownsville. This is the only secondary text that I have found to explain and provide authentic examples of reading/writing workshop process. The activities are practical and motivating. Hurray for Olson! Donna Uebler, Bradley University. Now in its second edition, *The Reading/Writing Connection* features an array of individual reading and writing strategies, activities, and mini-lessons that teachers can implement in their classrooms. Well-respected author Carol Booth Olson extends far beyond most books intended for teachers of language arts by integrating reading and writing in creative, theory-based ways. Lauded by students and professors as a clear and straightforward text, this revised and updated edition includes plenty of material about teaching the writing process and responding to literature and provides examples of lessons that help readers learn specific strategies. Unique in its field, *The Reading/Writing Connection* provides student models at middle and high school levels in almost every chapter, illustrating actual student responses to reading and writing activities. The text is also rich with literary selections, giving teachers easy access to the literature featured in the activities and demonstration lessons. **Features New to the Second Edition:** Extensive coverage of differentiated instruction for English Language Learners. A new chapter entitled *Introducing Students to the Cognitive Strategies in Their Mental Tool Kits* that summarizes and clarifies students' use of cognitive strategies in their thinking. An extensive and revised companion website that features reading and writing rubrics, student models, blackline masters of graphic organizers, and much more, available at www.ablongman.com/olson2e. *Mapping Comprehensive Units to the ELA Common Core Standards, 6-12* Kathy Tuchman
