

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Hilty,2014-12-05 This book is highly topical The shift from the multilateral WTO negotiations to bilateral and regional Free Trade Agreements has been going on for some time but it is bound to

accelerate after the WTO Doha round of negotiations is now widely regarded as a failure. However, there is a particular regional angle to this topic as well. After concluding that further progress in the Doha round was unlikely, Pacific Rim nations recently have progressed with the negotiations of a greatly expanded Trans Pacific Partnership Agreement that includes industrialised economies and developed countries such as the United States, Japan, Australia, and New Zealand, recently emerged economies such as Singapore, but also several developing countries in Asia and Latin America such as Malaysia and Vietnam. US and EU led efforts to conclude FTAs with Asia Pacific nations are also bound to accelerate again after a temporary slowdown in the negotiations following the change of government in the United States and the expiry of the US President's fast track negotiation authority. The book will provide an assessment of these dynamics in the world's fastest growing region. It will look at the IP chapters from a legal perspective but also put the developments into a socio-economic and political context. Many agreements in fact are concluded because of this context rather than for purely economic reasons or to achieve progress in fields like IP law. The structure of the book follows an outline that groups countries into interest alliances according to their respective IP priorities. This ranges from the driving forces of the EU, US, and Japan via Asia Pacific resource rich but IP poor economies such as Australia and New Zealand, recently emerged economies with strong IP systems such as Singapore and Korea, to leading developing countries such as China and India, and second tier industrializing economies such as Thailand, Malaysia, and Indonesia.

Justice in Conflict Mark Kersten, 2016-08-04. What happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts? What are the effects of interventions by the International Criminal Court (ICC) on the wars in which the institution intervenes? Is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution? This book offers an in-depth examination of the effects of interventions by the ICC on peace, justice, and conflict processes. The peace versus justice debate wherein it is argued that the ICC has either positive or negative effects on peace, has spawned in response to the Court's propensity to intervene in conflicts as they still rage. This book is a response to and a critical engagement with this debate. Building on theoretical and analytical insights from the fields of conflict and peace studies, conflict resolution, and negotiation theory, the book develops a novel analytical framework to study the Court's effects on peace, justice, and conflict processes. This framework is applied to two cases: Libya and northern Uganda. Drawing on extensive fieldwork, the core of the book examines the empirical effects of the ICC on each case. The book also examines why the ICC has the effects that it does, delineating the relationship between the interests of states that refer situations to the Court and the ICC's institutional interests, arguing that the negotiation of these interests determines which side of a conflict the ICC targets and thus its effects on peace, justice, and conflict processes. While the effects of the ICC's interventions are ultimately and inevitably mixed, the book makes a unique contribution to the empirical record on ICC interventions and presents a novel and sophisticated means of studying, analyzing, and understanding the effects of the Court's interventions in Libya, northern Uganda, and beyond.

Revolutionary Egypt Reem Abou-El-Fadl, 2015-06-05 In 2011 the world watched as Egyptians rose up against a dictator. Observers marveled at this sudden rupture and honed in on the heroes of Tahrir Square. *Revolutionary Egypt* analyzes this tumultuous period from multiple perspectives, bringing together experts on the Middle East from disciplines as diverse as political economy, comparative politics, and social anthropology. Drawing on primary research conducted in Egypt and across the world, this book analyzes the foundations and future of Egypt's revolution. Considering the revolution as a process, it looks back over decades of popular resistance to state practices and predicts the waves still to come. It also confidently places Egypt's revolutionary process in its regional and international contexts, considering popular contestation of foreign policy trends as well as the reactions of external actors. It draws connections between Egyptians' struggles against domestic despotism and their reactions to regional and international processes such as economic liberalization, Euro-American interventionism, and similar struggles further afield. *Revolutionary Egypt* is an essential resource for scholars and students of social movements and revolution, comparative politics, and Middle East politics, in particular Middle East foreign policy and international relations.
