MARK SCHEME for the October/November 2013 series

0510 ENGLISH AS A SECOND LANGUAGE

0510/22

Paper 2 (Reading and Writing – Extended),
maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Online Leslie F. Stebbins, 2015-09-16 We live in an information saturated environment and spend far too much time searching surfing skimming contributing and organizing the information in our lives We spend too little time immersing ourselves in reliable high quality information We are often so buried in information and strapped for time that we grab information like it was fast food without bothering to evaluate its quality Finding Reliable Information Online Adventures of an Information Sleuth uses stories or information adventures to illustrate the best approaches to searching for information and to help us develop our aptitude for locating high quality resources in a rapidly changing digital environment that is becoming proficient at monopolizing our attention with useless or unreliable information This book is about taking charge of the search process and not handing over the reins to search engines like Google Bing or Yahoo to dictate what information we consume Each chapter focuses on a quest for different types of information while digging deeper into the complexities of

finding credible places to look for information and ways to think about evaluating it As the Internet evolves and becomes more sophisticated our strategies for finding and evaluating information need to evolve as well The stories in this book range from investigating challenging research questions to exploring health issues and everyday life questions like finding a reliable restaurant or product review These chapters go beyond the simple and more mechanical checklist approach to evaluating information though these factors are also discussed The Princes in the Tower Philippa Langley,2023-11-19 In 1483 Edward V age twelve and his brother Richard Duke of York age nine disappeared from the Tower of London History has judged they were murdered on the orders of Richard III This new book reveals the truth behind the greatest unsolved mystery in English history Philippa Langley took the world by storm when against all the odds and after a seven year investigation she discovered the grave of King Richard III 1452 1485 in a Leicester car park A king finally laid to rest the rediscovery and reburial of Richard III was watched by a global audience of over 366 million Now in The Princes in the Tower Langley reveals the findings of a remarkable new research initiative The Missing Princes Project In the summer of 1483 Edward V age 12 and his brother Richard Duke of York age 9 disappeared from the Tower of London For over five hundred years history has judged that they were murdered on the orders of their uncle Richard III Following years of intensive research in British American and European archives Philippa has uncovered astonishing new archival discoveries that radically change what we know about the fate of the princes in the Tower Established by Langley in 2016 The Missing Princes Project employs the methods of a cold case police inquiry Using investigative methodology it aims to place this most enduring of mysteries under a forensic microscope for the very first time In The Princes in the Tower Langley narrates the painstaking investigative work and research of the project By questioning received wisdom she and her international team of researchers shed light upon one of history s greatest miscarriages of justice in turn revealing a surprising and phenomenal untold story **Ask What You Can Do For Your (New) Country** Nadejda K Marinova,2017-06-01 Within recent years a new body of literature has emerged within international relations on transnationalism and foreign policy This literature has thus far focused on the strategic relationship between home states and their ethnic lobbies abroad often with regard to remittances to and politics in the home country This book breaks new ground in that it develops a theory about when how and for what reasons host states use diasporas and the ethnic lobbies they generate to advance foreign policy goals Ask What You Can Do for Your New Country focuses on a previously unexamined phenomenon how host governments utilize diasporas to advance their foreign policy agendas in mutually beneficial ways As was demonstrated in the run up to the 2003 invasion of Iraq when Iraqi exiles testified that Saddam Hussein possessed weapons of mass destruction ethnic lobbies have been utilized strategically by the United States and other countries for the promotion of political objectives Host states have even promoted the creation of such ethnic lobbies for this purpose As Nadejda K Marinova shows those who participate in such lobbies are of a particular subset of migrants who are politically active express a sustained vision for homeland politics and who

often have existing ties to political institutions within the host state. These groups then act as a link between the public and officials in their home state and other generally less politically active members of the diaspora via a coordinated effort by the host state. She develops a theoretical model for determining the conditions under which a host state will decide to promote and utilize an ethnic lobby and she tests it against eight cases including the Bush Administration's use of the American Lebanese Cultural Union and the World Council for the Cedars Revolution in developing policy towards Lebanon and Syria, the Iraqi National Congress in endorsing the US invasion of Iraq, the Cuban American Committee's cooperation with the Carter administration in attempting to normalize relations with Cuba and the International Diaspora Engagement Alliance (IdEA) launched by Secretary of State Hillary Clinton in 2011 to promote economic development in a number of countries.
