European Identity Paul Bayley, Geoffrey Williams, 2012-05-31 European Identity examines how Europe is represented linguistically in the news media of four EU countries France Italy Poland and the UK through the use of an electronic corpus built from newspapers and television news transcripts This multilingual comparable corpus is composed of the entire contents of four newspapers published in each country collected over two periods of three months and the transcriptions of two TV news broadcasts collected over two periods of two months The theoretical and methodological frameworks adopted include discourse analysis corpus linguistics and corpus assisted discourse analysis The individual chapters investigate various aspects of European identity as it is discursively construed in the news media of the different countries such as Europe as a political and geographic entity European Union institutions European history citizenship and immigration Based on a bottom up orientation and using both quantitative and qualitative methods all chapters but one use a comparative approach to the data juxtaposing the journalist representations of Europe in two or more languages The fundamental aim of the volume is to demonstrate how linguistic analysis and in particular the study of large amounts of linguistic data can make a vital contribution to the analysis of political and social issues

European Spatial Planning and Territorial Cooperation Stefanie Dühr, Claire Colomb, Vincent Nadin, 2010-10-18 There is a strong international dimension to spatial planning European integration strengthens interconnections development and decision making across national and regional borders EU policies in areas such as environment transport agriculture or regional policy have far

reaching effects on spatial development patterns and planning procedures Planners in the EU are now routinely engaged in cooperation across national borders to share and devise effective ways of intervening in the way our cities towns and rural areas develop In short the EU has become an important framework for planning practice research and teaching Spatial planning in Europe is being Europeanized with corresponding changes for the role of planners Written for students academics practitioners and researchers of spatial planning and related disciplines this book is essential reading for everybody interested in engaging with the European dimension of spatial planning and territorial governance It explores spatial development trends and their influence on planning the nature institutions and actors of the European Union from a planning perspective the history of spatial planning at the transnational scale the planning tools perspectives visions and programmes supporting European cooperation on spatial planning the territorial impacts of the Community s sector policies the outcomes of European spatial planning in practice OECD Economic Surveys: European Union and Euro Area 2023 OECD,2023-09-21 The European recovery has been disrupted since the onset of Russia s war of aggression against Ukraine Co ordinated and timely policy action helped avoid a severe downturn but the near term outlook is clouded by uncertainty and downside risks Monetary and fiscal policy need to become sufficiently restrictive to reduce underlying inflationary pressures durably **Transplanting International Courts** Karen J. Alter,Laurence R. Helfer,2017-03-01 Transplanting International Courts provides a deep systematic investigation of the most active and successful transplant of the European Court of Justice The Andean Tribunal is effective by any plausible definition of the term but only in the domain of intellectual property law Alter and Helfer explain how the Andean Tribunal established its legal authority within and beyond this intellectual property island and how Andean judges have navigated moments of both transnational political consensus and political contestation over the goals and objectives of regional economic integration By letting member states set the pace and scope of Andean integration by condemning unequivocal violations of Andean rules and by allowing for the coexistence of national legislation and supranational authority the Tribunal has retained its fidelity to Andean law while building relationships with nationally based administrative agencies lawyers and judges Yet the Tribunal s circumspect and formalist approach means that unlike in Europe Community law is not an engine of integration The Tribunal s strategy has also limited its influence within the Andean legal system Transplanting International Courts also revisits the authors path breaking scholarship on the effectiveness of international adjudication Alter and Helfer argue that the European Court of Justice benefitted in underappreciated ways from the support of jurist advocacy movements that are absent or poorly organized in the Andes and elsewhere in the world The Andean Tribunal s longevity despite these and other challenges offers guidance for international courts in other developing country contexts Moreover given that the Andean Community has weathered member state withdrawals and threats of exit major economic and political crises and the retrenchment of core policies such as the common external tariff the Andean experience offers timely and important lessons for Europe s international courts
