Literacy Evan Ortlieb, Stephanie Grote-Garcia, Jack Cassidy, Earl H. Cheek Jr, 2020-09-30 This book showcases hot topics in literacy providing teachers with practices for literacy improvement The international scholars which comprise the author line up for this edited collection describe the evidence based research findings from their research in K 12 schools to demonstrate how literacy success is fostered across the globe Organizational Ethics Craig E. Johnson, 2024-12-30

Organizational Ethics A Practical Approach Sixth Edition provides readers with opportunities to apply ethical principles and practices in a variety of settings through self assessments analyses projects and discussion Bestselling author Craig E Johnson shows how we can develop our ethical competence just as we develop our abilities to manage or oversee operations

Trust-Based Observations Craig Randall, 2020-07-30 The results are in observations are not improving teaching and learning Pertinently the Gates Foundation's recently completed effort to improve student outcomes through enhancing the teacher evaluation process failed to achieve substantive improvement The way observations are currently designed serve as an obstacle to teacher risk taking Teachers fear negative evaluations when their pedagogy is rated and they lack faith in being supported by supervisors because a trusting relationship between them and their observer has not been built Trust Based Observations Maximizing Teaching and Learning Growth is a schema changing evaluation model that understands people perform at their best when they feel safe and supported It begins with twelve 20 minute observations per week followed by collegial conversations driven by reflective questions sharing observed teaching strengths and the building of safe and trusting relationships with teachers Add the elimination of rating pedagogical skills and replace it with rating mindset and teachers trust When teachers fully embrace risk taking and innovation it leads to remarkable teaching transformations and improved student learning *Collecting for the Curriculum* Amy J. Catalano, 2015-09-28 If you're a

librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum

development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials
