Resources in Education ,1993 **Writing and Learning in Cross-national Perspective** David Foster,2017-10-03 Despite the increasingly global implications of conversations about writing and learning U S composition studies has devoted little attention to cross national perspectives on student writing and its roles in wider cultural contexts Caught up in our own concerns about how U S students make the transition as writers from secondary school to postsecondary education we often overlook the fact that students around the world are undergoing the same evolution How do the students in China England France Germany Kenya or South Africa the educational systems represented in this collection write their way into the communities of their chosen disciplines How for instance do students whose mother tongue is not the language of instruction cope with the demands of academic and discipline specific writing And in what ways is U S students development as academic writers similar to or different from that of students in other countries With this collection editors David Foster and David R Russell broaden the discussion about the role of writing in various educational systems and cultures Students development as academic writers raises issues of student authorship and agency as well as larger issues of educational access institutional power relations system goals and students roles in society The contributors to this collection discuss selected writing purposes and forms characteristic of a specific national education system describe students agency as writers and identify contextual factors social economic linguistic cultural that shape institutional responses to writing development In discussions that bookend these studies of different educational structures the editors compare U S postsecondary writing practices and pedagogies with those in other national systems and suggest new perspectives for cross national study of learning writing issues important to all educational systems Given the worldwide increase in students

entering higher education and the endless need for effective writing across disciplines and nations the insights offered here and the call for further studies are especially welcome and timely

Caspari, 2015-10-13 This dynamic approach to an exciting form of teaching and learning will inspire students to gain insights and complex thinking skills from the school library their community and the wider world Guided inquiry is a way of thinking learning and teaching that changes the culture of a school into a collaborative inquiry community Global interconnectedness calls for new skills new knowledge and new ways of learning to prepare students with the abilities and competencies they need to meet the challenges of a changing world The challenge for the information age school is to educate students for living and working in this information rich technological environment At the core of being educated today is knowing how to learn and innovate from a variety of sources Through guided inquiry students see school learning and real life meshed in meaningful ways They develop higher order thinking and strategies for seeking meaning creating and innovating Today's schools are challenged to develop student talent coupling the rich resources of the school library with those of the community and wider world How well are you preparing your students to draw on the knowledge and wisdom of the past while using today's technology to advance new discoveries in the future This book is the introduction to guided inquiry It is the place to begin to consider and plan how to develop an inquiry learning program for your students

Young Adult and Canonical Literature Paula Greathouse, Victor Malo-Juvera, 2021-03-15 In the last decade alone the world has changed in seismic ways as marriage equality has been ruled on by the supreme court social justice issues such as metoo and BlackLivesMatter have arisen and issues of immigration and deportation have come to the forefront of politics across the globe Thus there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has and continues to experience The purpose of our collection is to offer secondary 6-12 teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical Within each volume the chapters are organized chronologically according to the publication date of the canonical text The pairings offered in this collection allow for comparisons in some cases for extensions in others and for critique in all Volume 2 covers *The Canterbury Tales* 1392 through *Fallen Angels* 1988
