[The Life of Longchenpa](#) Jampa Mackenzie Stewart, 2014-02-04 The first complete English language life story of Longchenpa 1308 1364 one of the greatest masters in the history of Tibetan Buddhism Compiled from numerous Tibetan and Bhutanese

sources including Longchenpa's autobiography and stories of his previous lives and subsequent rebirths. The Life of Longchenpa weaves an inspiring and captivating tale of wonder and magic of extraordinary visions and spiritual insight set in the kingdoms of fourteenth century Tibet and Bhutan. It also reveals for the first time fascinating details of his ten years of self-exile in Bhutan, stories that were unknown to his Tibetan biographers. Renowned as a peerless teacher, dedicated practitioner, and unparalleled scholar, Longchenpa thoroughly studied and mastered every one of the many Buddhist vehicles and lineages of teachings existing in Tibet at his time. Through his radiant intellect and meditative accomplishment in both his teachings and written works, he was able to reconcile the seeming discrepancies and contradictions between the various presentations of the view and the path within the many lineages of transmission. His written works are also famous for being able to transfer true blessings just by reading or hearing his enlightened words. A lyrical introduction by Venerable Yangtshang Tulku Rinpoche on the significance of Longchenpa and the importance of his birth and teachings, an essay by the late Khenpo Shenga (1871-1927) in praise of Longchenpa, plentiful illustrations, and a comprehensive glossary round out this compelling tale.

**Anima Mundi: The Rise of the World Soul Theory in Modern German Philosophy** Miklós Vassányi, 2010-11-16. This work presents and philosophically analyzes the early modern and modern history of the theory concerning the soul of the world, *anima mundi*. The initial question of the investigation is why there was a revival of this theory in the time of the early German Romanticism, whereas the concept of the *anima mundi* had been rejected in the earlier classical period of European philosophy, early and mature Enlightenment. The presentation and analysis starts from the Leibnizian-Wolffian school, generally hostile to the theory, and covers classical eighteenth-century physico-theology, also reluctant to accept an *anima mundi*. Next, it discusses early modern and modern Christian philosophical Cabbala, Böhme, and Tünger, an intellectual tradition which to some extent tolerated the idea of a soul of the world. The philosophical relationship between Spinoza and Spinozism, on the one hand, and the *anima mundi* theory, on the other, is also examined. An analysis of Giordano Bruno's utilization of the concept *anima del mondo* is the last step before we give an account of how and why German Romanticism, especially Baader and Schelling, asserted and applied the theory of the *Weltseele*. The purpose of the work is to prove that the philosophical insufficiency of a concept of God as an *ens extramundanum* instigated the Romantics to think an *anima mundi* that can act as a divine and quasi-infinite intermediary between God and Nature as a *locum tenens* of God in physical reality.
