Green Paper On Defence Department Of Defence:

Rethinking Military Professionalism for the Changing Armed Forces Krystal K. Hachey, Tamir Libel, Waylon H. Dean, 2020-06-09 This book will make a first contribution to identify the gaps in current practices and provide alternative mechanisms to conceptualize professionalism that is reflective of changing requirements culture and demographics of the contemporary military force The military profession promotes the development sustainment and embodiment of ethos which guides conduct across operational contexts from times of national and international crises and security challenges e g war natural disasters and peace support operations It is imperative for military leaders to understand how ethos and doctrine shape professional frameworks which guide the conduct of military members House of Commons - Defence Committee: Towards the Next Defence and Security Review: Part One - HC 197 Great Britain: Parliament: House of Commons: Defence Committee, 2014-01-07 In this report the Defence Committee argues that the capabilities of HM Forces should be determined not by budgetary constraints but by a fully developed strategy which defines the position in the world that the UK wants to adopt The report urges the government to produce a comprehensive national security strategy in the first place and let that document along with the Comprehensive Spending Review CSR direct the next Strategic Defence and Security Review SDSR The allocation of resources will be based on national spending priorities set to meet the nation s security needs There is a danger of defence becoming a matter of discretionary spending Decisions about the expeditionary capability that the UK retains must be based on proper strategic decision making about the UK s place in the world and not simply flow from the horse trading that surrounds the CSR process The report points to a lack of understanding amongst the public of why we have Armed Forces General sympathy and support for the Armed Forces must not obscure a hard headed understanding of what they are for The process of producing the next Defence and Security Review is the opportunity to engage the public in understanding the future of the Armed Forces The Committee has very real concerns about the focus that will be given to the number of asymmetric security threats to the UK such as from terrorism or cyber attack The Government must think more strategically about the resilience of the country s critical infrastructure and recovery following an attack Equipment, support and technology for UK defence and security Great Britain: Ministry of Defence, 2012-02 Dated February 2012 Summary of responses to Green Paper published December 2010 Cm 7989 ISBN 9780101798921 published alongside the White paper National security through technology Cm 8278 ISBN 9780101827829 Green Paper on Defence Ireland. Department of Defence, 2013 Emerging Strategies in Defense Acquisitions and Military Procurement Burgess, Kevin, Antill, Peter, 2016-07-22 Military and defense organizations are a vital component to any nation In order to maintain the standards of these sectors new procedures and practices must be implemented Emerging Strategies in Defense Acquisitions and Military Procurement is a pivotal reference source for the latest scholarly research on the present state of defense organizations examining reforms and solutions necessary to overcome current limitations and make vast

improvements to their infrastructure Highlighting methodologies and theoretical foundations that promote more effective practices in defense acquisition this book is ideally designed for academicians practitioners researchers upper level students and professionals engaged in defense industries *Understanding UK Military Capability* Andrew R. Curtis, 2024-05-14 Who decides how to use the UK military budget and how can we be sure that the UK's armed forces can meet the threats of tomorrow This book provides the answers to these questions Concentrating on decisions taken below the political level it uncovers the factors that underpin the translation of strategic direction into military capability **Canada Among Nations 1985** Tomlin, Brian, Appel Molot, Maureen, 1986 The 1985 edition of *Canada Among Nations* examines the reshaping of Canadian foreign policy that characterized the Mulroney Conservative government's first full year in power Initially the new government's handling of foreign policy was marred by indecision and internal tension By the end of 1985 however Prime Minister Brian Mulroney's ad hoc interventions on foreign affairs had ceased and the move to a more formal decision making process accompanied a rise in the influence of External Affairs Minister Joe Clark This edition of *Canada Among Nations* analyses the Mulroney government's agenda setting experience from a range of perspectives international security the economy relations with the Third World and the federal policy making process *Canada Among Nations 1986* Brian Tomlin, Maureen Appel Molot, 1987 The 1986 edition of *Canada Among Nations* chronicles the momentous ongoing debates concerning free trade negotiations with the United States From the start the free trade talks were bedevilled by a flurry of protectionist moves in the U S the most inflammatory involving a proposed duty on Canadian softwood lumber In the face of American belligerence the Mulroney government appeared indecisive on the lumber issue it insisted that it would neither negotiate nor impose an export tax and then did both In addition to free trade *Canada Among Nations* treats issues including Canada's foreign policy its economic situation relations with the third world and response to contemporary arms control proposals *The European Union in the Security of Europe* Steve Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment In this new and comprehensive guide to the EU's role in security since the end of the Cold War the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region However the Union's rhetorical ambitions and commitments continue to outstrip its capabilities and it lacks both a common conceptualisation of security and a meaningful shared strategic culture Drawing extensively on primary sources the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities With the EU capacity for enlargement slowing this text presents a detailed assessment of EU security policies towards Central Europe the Mediterranean the Western Balkans Eastern Europe and South Caucasus European Union Security will be of interest to students and scholars of the EU security studies and international relations

Proceedings of the XIV INTERNATIONAL SYMPOSIUM SYMORG 2014 Aleksandar Marković, Slađana Barjaktarović

Rakočević,2014-06-05 *The Strategic Defence and Security Review* Great Britain: Parliament: House of Commons: Defence Committee,2010-09-15 On 7 July 2009 the Ministry of Defence announced its plan for a Strategic Defence Review to follow the 2010 General Election The predecessor Defence Committee reported its views on the proposed Review in its fourth report of session 2009 10 HC 53 ISBN 9780215543912 The current Defence Committee supports the recommendation in that report that the Review be broadened in scope in order to set the country s defence needs in a stronger foreign and security policy context It is however recognised that the inclusion of broadly defined security concerns within the Review risks the dilution of the defence contribution Immediate or short term security issues and threats might dominate the Review to the exclusion of the medium to long term defence assessments made by the MoD The Government s need to tackle the deficit is understood yet there is concern at the possible consequences of the MoD s budget not being ring fenced for the future unlike those of the DFID and Department of Health The capacity of the country even to sustain current in use capabilities and therefore current operations could well be put at risk by the proposed cuts of between 10% and 20% This report looks at these risks and the specific issues including those of public consultation and the speed at which the Review process is being undertaken involved

How We Lead Joe Clark,2013-11-05 A passionate argument for Canada s reassertion of its place on the world stage from a former prime minister and one of Canada s most respected political figures In the world that is taking shape the unique combination of Canada s success at home as a diverse society and its reputation internationally as a sympathetic and respected partner constitute national assets that are at least as valuable as its natural resource wealth As the world becomes more competitive and complex and the chances of deadly conflict grow the example and the initiative of Canada can become more important than they have ever been That depends on its people assets have no value if Canadians don t recognize or use them or worse if they waste them A more effective Canada is not only a benefit to itself but to its friends and neighbours And in this compelling examination of what it as a nation has been what it has become and what it can yet be to the world Joe Clark takes the reader beyond formal foreign policy and looks at the contributions and leadership offered by Canada s most successful individuals and organizations who are already putting these uniquely Canadian assets to work internationally

Developments in EU Trade Policy Great Britain. Parliament. House of Lords. European Union Committee,2008 Evidence taken before Sub committee A Economic and Financial Affairs and International Trade

National, European and Human Security Mary Martin,Mary Kaldor,Narcís Serra,2013 This book examines how national security strategies relate to an emerging common European or global vision of security and to human security ideas Human security and national security are often regarded as competing and mutually antagonistic the former was proposed and has been operationalised in ways which represent a paradigm shift away from state centric approaches and the dominance of national security perspectives This has led to human security being associated with a broadening of the security agenda to encompass not only physical security the use of force and military capabilities but also the provision of

material well being and dignity to vulnerable communities This edited volume seeks to identify key concepts and themes in the national discourse of several European countries addressing security at a meta narrative and conceptual level illustrating the changes taking place in approaches to security and in particular mapping moves away from a paradigm of national security to one which might be called human security It also enables an assessment of whether national security is currently converging at either European or global levels This book will be of much interest to students of human security European politics discourse analysis war and conflict studies and IR security studies in general The Parliamentary Debates

Fergusson,2011-01-01 Since the mid

1950s successive Canadian governments have responded to US ballistic missile defence initiatives with fear and uncertainty Officials have endlessly debated the implications at home and abroad of participation Drawing on previously classified government documents and interviews with senior officials James Fergusson offers the first full account of Canada s unsure response to US initiatives He reveals that factors such as weak leadership and a tendency to place uncertain and ill defined notions of international peace and security before national defence have resulted in indecision In the end policy makers have failed to transform the ballistic missile defence issue into an opportunity to define Canada s strategic interests at home and on the world stage Diplomatic Departures Kim R. Nossal,Nelson Michaud,2007-10-01 During the nine years that the Conservatives under Brian Mulroney held power in Ottawa Canadian foreign policy underwent a series of important departures from established policy Some of these changes mirrored the major transformations in global politics that occurred during this period as the Berlin Wall was breached the Cold War came to an end and a globalized economy emerged But some of the changes were the results of initiatives taken by the Conservative government The first major scholarly examination of the foreign policy of this period this collection explores and analyzes the many departures from traditional Canadian statecraft that took place during the Mulroney Conservative era free trade with the U S a continentalized energy policy initiatives over the environment and the Arctic the withdrawal of Canadian forces from Europe and the transformation of peacekeeping into peacemaking **The Routledge Handbook of Civil-Military Relations** Thomas C. Bruneau,Florina

Cristiana Matei, 2012-11-12 This new Handbook offers a wide ranging internationally focused overview of the field of civil military relations. The armed forces are central actors in most societies and are involved in many different roles. Amongst other activities they engage in peace operations, support the police in fighting crime, support civilian authorities in dealing with natural disasters and fight against terrorists and in internal conflicts. The existing literature on this subject is limited in its discussion of war fighting and thus does not do justice to this variety of roles. The Routledge Handbook of Civil Military Relations not only fills this important lacuna but offers an up to date comparative analysis which identifies three essential components in civil military relations: 1. democratic civilian control, 2. operational effectiveness and 3. the efficiency of the security institutions. Amalgamating ideas from key thinkers in the field, the book is organized into three main parts: Part I Development of the Field of Study; Part II Civil Military Relations in Non Democratic or Nominally Democratic Countries; Part III Civil Military Relations in Democratic and Democratizing States: Issues and Institutions. This new Handbook will be essential reading for students and practitioners in the fields of civil military relations, defense studies, war and conflict studies, international security and IR in general.
