Hindu-Christian Dialogue: Perspectives and Encounters Harold Coward,1993 FOR SALE IN SOUTH ASIA ONLY

Between Hindu and Christian Kerry P. C. San Chirico,2023 Between Hindu and Christian sheds light on a movement of low caste and Dalit devotees worshipping Jesus in Catholic spaces in Varanasi the purported heart of Hindu civilization San Chirico examines the worldview and ways of life of these devotees along with the Catholic priests and nuns who mediate Jesus Mary and other members of the Catholic pantheon in a place never associated with Christianity San Chirico places this movement within the context of the devotional history of Varanasi the history of Indian Christianity the rise of low caste and Dalit emancipatory struggles and the ascendance of Hindu nationalism to demonstrate that religious categories are not nearly as distinct as they often seem

Hindu-Christian Dialogue Mariasusai Dhavamony,2021-11-15 Dialogue is an integral part of the mission of the Christian church The immensity of the ocean of Hindu doctrine and thought presents a significant obstacle to Christians who have been invited by the Roman Catholic Church to scrutinize the divine Mystery present in other religions Many fascinated by Hindu mysticism confuse permanent Hindu beliefs with certain current Western religious movements India's quest for the divine embodies multiple forms Its millennia old methods of meditation and varieties of asceticism often confuse those who are less inclined to experience of an inner spiritual nature This book attempts to address some of these difficulties and questions It is the author's belief that in the Hindu Christian encounter the Christian believer will also rediscover the originality and newness of the Christian revelation viz the intervention of God in the history of salvation whereby God reveals his salvific love in Jesus Christ Possessing expert knowledge of both Hinduism and Christianity the author approaches the Hindu Christian dialogue with sympathy and discernment

A Christian Folk-religion in India P. Solomon Raj, 1986 This work is an attempt to critically assess the life and the theology of the small churches in India especially in the Teluguspeaking land of Andhra Pradesh in the South For a close examination the author chose the Bible Mission which started as a break away group from his own Church the Andhra Evangelical Lutheran Church The relationship of these small groups to the mission churches and their appeal to the non Christians has been a much discussed subject in India in recent times

Theological Education for the Mission of the Church in India, 1947-1987 Siga Arles, 1991 Indian National independence and Church Union in the Church of South India both in 1947 demanded a rethinking on the part of the Indian Christians with regard to the mission of the Church in India the meaning and methods of ministry and the role of theological education This book is a study of the quest for relevance in Indian theological education during the period 1947 to 1987 This book studies concepts of mission such as the traditional evangelization and the modern participation in nation building ministry as changing from the domination of male clergy to the participation of the laity and women theological education as equipment of the whole church for wider involvement in Indian society within the context of poverty and religious pluralism It deals with the four decades of thought development and indigenous experimentations simultaneously looking at the effect of the evangelical and ecumenical division of the church's understanding of her mission and ministry in India While studying several seminaries Tamilnadu Theological Seminary is used as a case to illustrate the continuing process of the quest for relevance An extensive bibliography notes on people referred and a directory of theological colleges are additional resources in this work

Tastes of the Divine Michelle Voss, 2014-06-16 The intensity and meaningfulness of aesthetic experience have often been described in theological terms By designating basic human emotions as rasa a word that connotes taste flavor or essence Indian aesthetic theory conceptualizes emotional states as something to be savored At their core emotions can be tastes of the divine In this book the methods of the emerging discipline of comparative theology enable the author's appreciation of Hindu texts and practices to illuminate her Christian reflections on aesthetics and emotion Three emotions vie for prominence in the religious sphere peace love and fury Whereas Indian theorists following Abhinavagupta claim that the aesthetic emotion of peace best approximates the goal of religious

experience devotees of Krishna and medieval Christian readings of the Song of Songs argue that love communicates most powerfully with divinity In response to the transcendence emphasized in both approaches the book turns to fury at injustice to attend to emotion s foundations in the material realm The implications of this constructive theology of emotion for Christian liturgy pastoral care and social engagement are manifold

Anti-Christian Violence in India Chad M. Bauman, 2020-09-15 Does religion cause violent conflict asks Chad M Bauman and if so does it cause conflict more than other social identities Through an extended history of Christian Hindu relations with particular attention to the 2007 2008 riots in Kandhamal Odisha Anti Christian Violence in India examines religious violence and how it pertains to broader aspects of humanity Is religious conflict sui generis or is it merely one species of intergroup conflict Why and how might violence become an attractive option for religious actors What explains the increase in religious violence over the last twenty to thirty years Integrating theories of anti Christian violence focused on politics economics and proselytization Anti Christian Violence in India additionally weaves in recent theory about globalization and in particular the forms of resistance against Western secular modernity that globalization periodically helps to provoke With such theories in mind Bauman explores the nature of anti Christian violence in India contending that resistance to secular modernities is in fact an important but often overlooked reason behind Hindu attacks on Christians Intensifying the widespread Hindu tendency to think of religion in ethnic rather than universal terms the ideology of Hindutva or Hinduness explicitly rejects both the secular privatization of religion and the separability of religions from the communities that incubate them And so with provocative and original analysis Bauman questions whether anti Christian violence in contemporary India is really about religion in the narrowest sense or rather a manifestation of broader concerns among some Hindus about the Western sociopolitical order with which they associate global Christianity

Absolute Revelation and Universal Religion Joseph Pandiappallil, 2006 The mutual enrichment and tolerance between Christianity and Hinduism should be an important theme in any discussion of interreligious co-existence because of the influence of both religions in the present day world But is there a meeting point between Christian absolutism and Hindu universalism Can pluralism be a solution If the claim of one religion does not contradict the claim of the other why should a mutual recognition tolerance and co-existence be impossible Why cannot the followers of different religions live together as brothers and sisters of one single loving Father These and many other similar questions are dealt with in this book

Hindu Theology in Early Modern South Asia Kiyokazu Okita, 2014 Focusing on the idea of genealogical affiliation sampradaya Kiyokazu Okita explores the interactions between the royal power and the priestly authority in eighteenth century north India He examines how the religious policies of Jaisingh II 1688-1743 of Jaipur influenced the self-representation of Gaudiya Vaisnavism as articulated by Baladeva Vidyabhusana ca 1700-1793 Gaudiya Vaisnavism centred around God Krsna was inaugurated by Caitanya 1486-1533 and quickly became one of the most influential Hindu devotional movements in early modern South Asia In the increasingly volatile late Mughal period Jaisingh II tried to establish the legitimacy of his kingship by resorting to a moral discourse As part of this discourse he demanded that religious traditions in his kingdom conform to what he conceived of as Brahmanically normative In this context the Gaudiya school was forced to deal with their lack of clear genealogical affiliation lack of an independent commentary on the Brahmasutras and their worship of Goddess Radha and Krsna who according to the Gaudiyas were not married Based on a study of Baladeva's Brahmasutra commentary Kiyokazu Okita analyses how the Gaudiyas responded to the king's demand

Indian Christian Sannyāsa and Swami Abhishiktananda Emmanuel Vattakuzhy, 1981 On the life and teachings of Swami Abhishiktananda 1910-1973 Benedictine monk from France

Demystifying Brahminism and Re-Inventing Hinduism Satya Shri, 2017-01-23 Religion is a tool in the hands of the oppressor against the oppressed solely because he frames the commandments and calls them the God's is an apt description of the Hindu social order The book rips open the raw nerve of Hinduism its invidious castes positioned as a God-ordained institution commandeered by its freebooter priestly class while clandestinely establishing its religious social and political hegemony through interpolation of its pristine and effulgent scriptures The

author boldly analyses this imbroglio through a microscopic analysis of these and more related issues How priests controlled the Hindu religious social educational and political apparatus How the dominant priestly class fractured the society into mutually antagonistic subordinated hierarchical segments and ruled it by reserving all elite jobs for itself How the fiendish priesthood emasculated shudras by depriving them of the shastra and shastra education and arms and made them permanent village servant classes How the pretensions of attaining siddhis through meditation and penances established priests as the gods on earth for their assertions of purity and effulgence How karma reincarnation and 84 lakhs births theories were devised to justify fatalism and hierarchical gradation of varnas Can India be rightfully called the vishvaguru and the mother of all civilisations How Buddhism effeminated Hindus and made them the doormats for the ruthless Why Hindus had to abandon their own to adopt foreign institutions of governance Why Hinduism should become a universal and proselytising faith and fight demographic challenges posed by Islam and Christianity Hindu and Christian in Vrindaban Klaus K. Klostermaier, 1969 This is an account by a German monk of the Order of the Divine Word of his experiences and reflections as virtually the only Christian in one of the great holy cities of India **The Vernacularisation of Democracy** Lucia Michelutti, 2020-11-29 The book is an ethnographic exploration of how democracy takes social and cultural roots in India and in the process shapes the nature of popular politics It centres on a historically marginalised caste who in recent years has become one of the most assertive and politically powerful communities in North India the Yadavs The Vernacularisation of Democracy is a vivid account of how Indian popular democracy works on the ground Challenging conventional theories of democratisation the book shows how the political upsurge of the lower orders is situated within a wider process of the vernacularisation of democratic politics referring to the ways in which values and practices of democracy become embedded in particular cultural and social practices and in the process become entrenched in the consciousness of ordinary people During the 1990s Indian democracy witnessed an upsurge in the political participation of lower castes communities and the emergence of political leaders from humble social backgrounds who present themselves as promoters of social justice for underprivileged communities Drawing on a large body of archival and ethnographic material the author shows how the analysis of local idioms of caste kinship kingship popular religion the past and politics the vernacular inform popular perceptions of the political world and of how the democratic process shapes in turn the vernacular This line of enquiry provides a novel framework to understand the unique experience of Indian democracy as well as democratic politics and its meaning in other contemporary post colonial states Using as a case study the political ethnography of a powerful northern Indian caste the Yadavs and combining ethnographic material with colonial and post colonial history the book examines the unique experience of Indian popular democracy and provides a framework to analyse popular politics in other parts of the world The book fills **Becoming Indian**, 2012 **ISKCON Studies Journal, Vol. One** ISKCON Studies Institute, **The Garland Encyclopedia of World Music: South Asia : the Indian subcontinent**
