The history of the French revolution, tr. with notes by F. Shoberl Marie Joseph L. Adolphe Thiers, 1838 *History of the French Revolution* Jules Michelet, **The History of the French Revolution Volume 1** Adolphe Thiers, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1866 edition Excerpt wavering conduct of the King The moderates alarmed by divisions hoped that the common danger would put an end to them and that the fields cciving that changes in the constitution that violation of the equality which is the basis of it were the sole aim of the enemies of France that they wished to punish her for having recognised in their full extent the rights common to all mankind and then it took that oath repeated by all Frenchmen to perish rather than suffer the slightest attack either upon the liberty of the citizens or upon the sovereignty of the people or above all upon that equality without which there exists for societies neither justice nor happiness Would they reproach the French with not having sufficiently respected the rights of other nations in offering only pecuniary indemnities either to the German princes holding possessions in Alsace or to the Pope Treaties had acknowledged the sovereignty of France over Alsace and it had been peaceably exercised there for upwards of a century The rights which these treaties had reserved were but privileges the meaning of this reserve therefore was that the possessors of fiefs in Alsace should retain them with their old prerogatives so long as the general law of France admitted of the different forms of feudalism that reserve signified also that if the feudal

prerogatives were involved in one general ruin the nation ought to indemnify the possessors for the real advantages resulting from it for this is all that the right of property can demand when it happens to be in opposition to the law in contradiction to the public interest The citizens of Alsace are Frenchmen and the nation cannot without disgrace and without injustice suffer them to be deprived **The History of the French Revolution, Vol. 1 of 4 (Classic Reprint)** Adolphe Thiers, 2017-10-27

Excerpt from The History of the French Revolution Vol 1 of 4 It is to be regretted that an author so well versed in the annals of his country as M Thiers has not thought it worth his while to enter more into detail on the subject of the numerous secondary causes which helped to bring about the French Revolution It will be observed that after a few brief introductory paragraphs of a didactic rather than an historical character he comes at once to his subject as if he took for granted that all his readers were as well acquainted as himself with the remote as well as with the immediate origin of that memorable event His history may be said to commence with the derangement of the national finances after the death of Maurepas but the seeds of the revolution were sown long before his time The immediately propelling cause was no doubt financial but the struggle had become necessary it may almost be said from the day of the decease of the Grand Monarque About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Histoire de la Revolution de France Par Antoine Francois Bertrand de Moleville, 1801 History of the French Revolution of 1848 Alphonse de Lamartine, 1862 The History of the French Revolution Adolphe Thiers, 1854
