Histoire Du Procheorient Contemporain:

Histoire du Proche-Orient contemporain Leyla Dakhli, 2015-05-28 En portant le regard sur les sociétés cette synthèse entend situer les révolutions de 2011-2012 dans une genalogie des luttes dans la région. Contre la vision d'un monde arabe secoué de guerres et de soubresauts plus ou moins irrationnels l'auteure critique ici l'histoire des sociétés et des changements qui les affectent de la fin de l'Empire ottoman aux temps modernes en passant par la période de domination coloniale de l'entre-deux guerres. Retraçant l'histoire du Proche-Orient au XX^e siècle en portant le regard sur les sociétés cette synthèse entend situer les révolutions de 2011-2012 dans une genalogie des luttes dans la région. Contre la vision d'un monde arabe secoué de guerres et de soubresauts plus ou moins irrationnels l'auteure critique ici l'histoire des sociétés et des changements qui les affectent de la fin de l'Empire ottoman aux temps modernes en passant par la période de domination coloniale de l'entre-deux guerres. Cette histoire commence par une révolution celle menée au sein de l'Empire par les Jeunes Turcs et s'achève dans le cycle révolutionnaire actuel marqué par l'expression de volontés fortes d'émancipation mais aussi par des résistances et des violences immenses. Elle propose une chronologie de la région qui s'articule autour des moments de contestation et d'élaboration de voies nouvelles pour les sociétés et pour les luttes fondamentales idéologiques nationales ou transnationales, parcours de migrations, luttes ouvrières, mouvements de jeunesse, mouvements culturels.

Proche et Moyen-Orient contemporain Encyclopaedia Universalis, Les Grands Articles, 2015-10-28 Le terme Moyen-Orient qui traduit l'expression anglo-saxonne Middle East n'apparaît qu'au début du XX^e siècle pour désigner cette zone médiane entre Proche et Extrême-Orient centrée sur le golfe Persique. Si les Américains l'utilisent parfois du Maroc au Pakistan les Européens la définissent plus volontiers comme un arc de

Le monde arabe en morceaux - 2^e éd. Charles Thépaut, 2020-03-04 Les pays arabes sont parcourus par des crises difficiles depuis. Les printemps de 2011 ont remis en cause des systèmes qui n'étaient plus viables mais n'ont pu en traiter les causes économiques et sociales. La répression des soulèvements a généré de nouveaux conflits mais les populations continuent de réclamer un traitement plus digne comme en Algérie au Liban et en Irak. En 2019, malgré la géopolitique, ces crises alimentent différents degrés de violence, brutalité extrême de Daech et des guerres au Yémen et en Syrie, escalades ponctuelles Gaza et conflits régionaux en Libye. Dans les zones plus stables les inégalités s'aggravent, entre une partie intégrée dans la mondialisation et le reste de la population. Cet ouvrage propose une analyse précise de chaque pays de cette région fragmentée. Il en explique également la nouvelle géopolitique au moment où la Russie, l'Iran ou la Turquie profitent de l'impasse américaine vis-à-vis du Moyen-Orient. Si le tableau est sombre, ce livre rappelle aussi l'énergie des sociétés qui continuent de vivre, de bouillonner, d'initiatives locales pour dessiner leur avenir malgré les obstacles.

General Labour History of Africa Stefano Bellucci, Andreas Eckert, 2019 The first comprehensive and authoritative history of work and labour in Africa a key text for all working on African Studies and Labour History worldwide

The Lebanon Uprising of 2019 Jeffrey G. Karam, Rima Majed, 2022-09-22 In October 2019 hundreds of thousands took to the streets of Lebanon to protest austerity

measures in what became known as the *thawra*. These were the largest mass protests seen in the country's modern history. The Lebanon Uprising of 2019 puts the revolution in its historical and regional context and also follows the huge transformations that have been unraveling in Lebanon ever since. The book is a unique source of testimonies that brings to the fore the voices of those scholars, activists, researchers, and journalists who took part in the protests or were closely involved in the unfolding events. These accounts include stories about specific events and struggles, views of the uprising from various regions of the country, and reflections on topics such as the labor struggle, disability, the student movement, foreign interventions, the struggle for preserving environmental spaces, the role of refugees and non-Lebanese within the movement, and women and queer participation. The book situates the protests within the historical, political, economic, social, and environmental foundations of the Lebanese polity, as well as in the broader context of a second wave of Arab uprisings and a global wave of upheavals in 2019, making this book a testament to the rich history of protests and activism in the country. It features some primary documents, including photos and other materials that were disseminated in the streets and over social media platforms, making this book an important resource of first-hand knowledge.

Universalism(e) & ... Elsie Cohen, Azyza Deiab, Franck Hofmann, Markus Messling, Clément Ndé Fongang, Hélène Thiérard, Jonas Tinius, 2024-09-23. This book confronts the history and legitimacy of Western Universalism. In the form of conversations, it documents thinking in process about how new forms of universality after hegemonic universalism can be thought and practised. Bringing into play their practices and theories, the interlocutors of Universalism e lay their own traces of a minor universality situated in the troubling present of our times. Ce livre s'attaque à l'histoire et à la légitimité de l'universalisme occidental. Sous la forme de conversations, il documente la réflexion en cours sur les façons de penser et de pratiquer de nouvelles formes d'universalité après l'universalisme hégémonique, à partir de leurs pratiques et de leurs théories. Les interlocuteurs d'Universalism e font apparaître leur propre cheminement autour de cette universalité mineure située dans le présent troublant de notre époque. Universalism e révolution, histoires concrètes, pr-histoire, multiversalisme, savoirs, le partisan, position, narration, réparation. Entretiens avec Conversations with Arjun Appadurai, Leyla Dakhli, Souleymane Bachir Diagne, Giovanni Levi, Gisèle Sapiro, David Scott, Adania Shibli, Maria Stavrinaki.

Jerusalem 1900 Vincent Lemire, 2017-04-21. Perhaps the most contested patch of earth in the world, Jerusalem's Old City experiences consistent violent unrest between Israeli and Palestinian residents with seemingly no end in sight. Today, Jerusalem's endless cycle of riots and arrests appears intractable, even unavoidable, and it looks unlikely that harmony will ever be achieved in the city. But with *Jerusalem 1900*, historian Vincent Lemire shows us that it wasn't always that way, undoing the familiar notion of Jerusalem as a lost cause and revealing a unique moment in history when a more peaceful future seemed possible. In this masterly history, Lemire uses newly opened archives to explore how Jerusalem's elite residents of differing faiths cooperated through an intercommunity municipal council they created in the mid-1860s to administer the affairs of all inhabitants and improve their shared city. These residents embraced a spirit of modern urbanism.

and cultivated a civic identity that transcended religion and reflected the relatively secular and cosmopolitan way of life of Jerusalem at the time These few years would turn out to be a tipping point in the city's history a pivotal moment when the horizon of possibility was still open before the council broke up in 1934 under British rule into separate Jewish and Arab factions Uncovering this often overlooked diplomatic period Lemire reveals that the struggle over Jerusalem was not historically inevitable and therefore is not necessarily intractable Jerusalem 1900 sheds light on how the Holy City once functioned peacefully and illustrates how it might one day do so again

Sharing Sacred Spaces in the Mediterranean Dionigi Albera, Maria Couroucli, 2012-02-20 Will spark debate and hopefully further research into points of contact between the monotheistic religions and others The Levantine Review While devotional practices are usually viewed as mechanisms for reinforcing religious boundaries in the multicultural multiconfessional world of the Eastern Mediterranean shared shrines sustain intercommunal and interreligious contact among groups Heterodox marginal and largely ignored by central authorities these practices persist despite aggressive homogenizing nationalist movements This volume challenges much of the received wisdom concerning the three major monotheistic religions and the clash of civilizations as contributors examine intertwined religious traditions along the shores of the Near East from North Africa to the Balkans
