Historic Motorcycles 2016:

Classic Motorcycles Pat Hahn, 2017-01-01 Finally The world's most incredible motorcycles are given the artful representation they deserve The motorcycle should have disappeared with the advent of the inexpensive automobile since Henry Ford's Model T usurped the motorcycle's position as a primary form of utilitarian transportation but a funny thing happened on the way to extinction the motorcycle not only survived but thrived Enough people were enamored of the thrill and beauty of the two wheeled mechanical beast to ensure it would continue to exist indefinitely And exist they have Many of the motorcycles manufactured over the past century truly fit the description of classic and many consider these machines works of art Written by noted motorcycle author Patrick Hahn Classic Motorcycles presents the history of motorcycling as told through the most significant iconic classic motorcycles of all time with both period photography and modern portrait photography All the best domestic and international makes are represented here from BMWs Indians and Triumphs to Vincents Ducatis and Harley Davidsons the most classic models You'll drool over the 1933 Matchless Silver Hawk Each motorcycle was shot in a studio setting using photographer Tom Loeser's light painting technique Period ads and relevant historic photos and documents are spread throughout the book to supplement the portraits of the bikes really evoking a sense of time and place Prepare to be in awe of the undeniably classic motorcycles in this collection It's the only motorcycle history you'll need

the ways we might preserve and conserve it Drawing on contributions from academics and practitioners around the world and comprising six sections this volume carries the heritage discourse forward by exploring the complex and sometimes intricate place of automobiles within society Taken as a whole this book helps to shape how we think about automobile heritage and considers how that heritage explores a range of cultural intellectual emotional and material elements well outside of the automobile body itself Most importantly perhaps it questions how we might better acknowledge the importance of automotive heritage now and in the future The Routledge Companion to Automobile Heritage Culture and Preservation is unique in that it juxtaposes theory with practice academic approaches with practical experience and recognizes that issues of preservation and conservation belong in a broad context As such this volume should be essential reading for both academics and practitioners with an interest in automobiles cultural heritage and preservation

The Ambiguities of European Comic-book Bikers David Walton, 2024-08-19 In this book David Walton explores European comic book biker publications as a subgenre of popular culture Using a multidisciplinary approach he reveals an intricate amalgam of ingenuity irony and highly ambiguous humor The creative resourcefulness of the comic book biker authors is seen to dramatize and celebrate the material existence of motorcycles and lifestyles while laughing at the foibles inconsistencies manias fantasies and practices of those characterised as motorized flâneurs At the core of Walton's analysis is

the exploration of identity formation marked by tensions between individualism and collective affinities undermined by egoism and competitiveness At the same time Walton argues that the storylines despite much comic invention caricature and exaggeration create resonances which hold up a distorted but highly revealing mirror to the multiple subgroups of people who ride motorcycles for pleasure The author also demonstrates how the implied biker readers of this subgenre confront comic representations of themselves which repeatedly undermine any positive self image they may possess Yet the comics are also seen to offer valuable insights into much broader cultural concerns ranging from subculture consumption habits in authenticity taste freedom risk and delinquency without forgetting other key aspects of cultural studies like class race and ethnicity gender sexuality and ecocriticism
