## History A Novel:

*The English Novel in History, 1950 to the Present* Professor Steven Connor, Steven Connor, 2008-03-07 Steven Connor provides in depth analyses of the novel and its relationship with its own form with contemporary culture and with history He incorporates an extensive and varied range of writers in his discussions such as George Orwell William Golding Angela Carter Doris Lessing Timothy Mo Hanif Kureishi Marina Warner Maggie Gee Written by a foremost scholar of contemporary culture and theory *The English Novel in History 1950 to the Present* offers not only a survey but also a historical and cultural context to British literature produced in the second half of this century      **The Oxford History of the Novel in English** Patrick Parrinder, 2011 This series presents a comprehensive global and up to date history of English language prose fiction and written by a international team of scholars dust jacket      **History and the Contemporary Novel** David Cowart, 1989 Cowart presents a study of international historical fiction since World War II with reflections on the affinities between historical and fictional narrative analysis of the basic modes of historical fiction and readings of a number of historical novels including John Barth's *The Sot Weed Factor* Marguerite Yourcenar's *Memoirs of Hadrian* Russell Hoban's *Riddley Walker* Margaret Atwood's *The Handmaid's Tale* Giuseppe Tomasi Di Lampedusa's *The Leopard* D M Thomas's *The White Hotel* William Faulkner's *Go Down Moses* and Umberto Eco's *The Name of the Rose* He proposes recognizing four modes of the historical novel the past as a distant mirror of the present fictions whose authors seek to pinpoint the precise historical moment when the modern age or some prominent feature of it came into existence fictions whose authors aspire purely or largely to historical verisimilitude and fictions whose authors reverse history to contemplate utopia and dystopia in the future Thus historical fiction can be organized under the rubrics *The Distant Mirror* *The Turning Point* *The Way It Was* and *The Way It Will Be* This fourfold schema and his focus on postwar novels set Cowart's work apart from previous studies which have not devoted adequate space to the contemporary historical novel Cowart argues that postwar historical fiction merits more extensive treatment because it is the product of an age unique in the annals of history an age in which history itself may end

Gerald Kennedy, Leland S. Person, 2014-06-26 The Oxford History of the Novel in English is a 12 volume series presenting a comprehensive global and up to date history of English language prose fiction and written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements traditions and tendencies In thirty four essays this

volume reconstructs the emergence and early cultivation of the novel in the United States Contributors discuss precursors to the U S novel that appeared as colonial histories autobiographies diaries and narratives of Indian captivity religious conversion and slavery while paying attention to the entangled literary relations that gave way to a distinctly American cultural identity The Puritan past more than two centuries of Indian wars the American Revolution and the exploration of the West all inspired fictions of American struggle and self discovery A fragmented national publishing landscape comprised of small local presses often disseminating odd experimental forms eventually gave rise to major houses in Boston New York and Philadelphia and a consequently robust culture of letters Dime novels literary magazines innovative print technology and even favorable postal rates contributed to the burgeoning domestic book trade in place by the time of the Missouri Compromise Contributors weigh novelists of this period alongside their most enduring fictional works to reveal how even the most American of novels sometimes confronted the inhuman practices upon which the promise of the new republic had been made to depend Similarly the volume also looks at efforts made to extend American interests into the wider world beyond the nation s borders and it thoroughly documents the emergence of novels projecting those imperial aspirations

**History, Fiction, and Germany** Brent Orlyn Peterson, 2005 A study of the content development and transmission of German identity during the nineteenth century as Germany s national narrative took shape in historical fiction and in both popular and academic history The German speaking inhabitants of central Europe did not automatically think of themselves as Germans not before 1871 and not always after unification In fact they spoke mutually incomprehensible dialects owed allegiance to different leaders worshiped in different churches and would not have recognized each other s customs If asked about their identity these prospective Germans might have answered Austrian Bavarian or Prussian and they could as easily have used more local labels or resorted to occupational markers For this disparate population to think of itself as German that word had to acquire content people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity History Fiction and Germany chronicles how German nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material The book examines Germany s emerging national narrative as nineteenth century writers adapted it to their own visions and to changing circumstances These writers found and popularized the nation s heroes and heroines demonized its villains and enemies and projected the nation s hopes and dreams for the future Author Brent O Peterson argues that it was the production and consumption of national history the writing and reading of the nation that filled Germany with Germans Although the task of national narration was never complete and never produced a single universally accepted version of German national identity tales from Germans gradually shared history did more to create Germany than any statesman general or philosopher History Fiction and Germany provides a valuable resource for scholars and students of German studies as well as anyone interested in history and the articulation of national identity

**The Oxford History of the Novel in English** Cyrus R. K.

Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

**Making History** Stephen Fry, 1997

Those of us who have already discovered Stephen Fry know him as the brilliant British comedian behind TV series such as Jeeves Wooster and Blackadder and the author of two enormously funny novels The Liar and The Hippopotamus But his new film in which he plays Oscar Wilde and his new novel this one represent a somewhat alarming departure from his previous work They are more serious Though humor is still an essential ingredient of both Fry's fans are finally getting to witness the emotional depth that this brilliant polymath usually keeps hidden In Making History Fry has bitten off a rather meaty chunk by tackling an at first deceptively simple premise What if Hitler had never been born An unquestionable improvement one would reason and so an earnest history grad student and an aging German physicist idealistically undertake to bring this about by preventing Adolf's conception And with their success is launched a brave new world that is in some ways better than ours but in most ways even worse Fry's experiment in history makes for his most ambitious novel yet and his most affecting His first book to be set mostly in America it is a thriller with a funny streak a futuristic fantasy based on one of mankind's darkest realities It is in every sense a story of our times From the Hardcover edition

Making Use of History in New South African Fiction Sten Pultz Moslund, 2003 A study of the use of history as political ammunition and literature as historical counter discourse in Mongane Serote's Gods of Our Time Mike Nicol's The Ibis Tapestry and Zakes Mda's Ways of Dying Moslund shows how literary engagement with the past seeks to rupture the continuity of a strongly dichotomised epistemology and through that dissolve the inherited polarisation of society Falsification of history is exposed as constructed discourse and past simplifications of reality as sharply demarcated into homogenous self justifying categorisations of Us against Them are challenged with paradox doubt and introspection

alternative history fiction      *The Power of Neo-Slave Fiction and Public History* Grant Rodwell, 2023-10-13 Professional historians schools colleges and universities are not alone in shaping higher order understanding of history The central thesis of this book is the belief historical fiction in text and film shape attitudes towards an understanding of history as it moves the focus from slavery to the enslaved from the institution to the personal families and feminist accounts In a broader sense this contributes to a public history In part using the quickly growing corpus of neo slave counterfactual narratives this book examines the notion of the emerging slavery public history and the extent to which this is defined by literature film and other forms of artistic expression rather than non fiction popular or scholarly and education in history in the school systems Inter alia this book looks to the validity of historical fiction in print or in film as a way of understanding history A focal point of this book is the hypothesis that neo slave narratives supported by selective triangulated readings and viewings of scholarly works and non fiction have assisted greatly in re shaping the historiography of antebellum slavery and scholarly historians followed in the wake of these developments Essentially this has meant a re shaping of the historiography with a focus from slavery to that of the enslaved Moreover it has opened new vistas for a public history devoid of top down authoritative scholarship An important and provocative read for students and scholars interested in understanding the history of slavery its harrowing effects and how it was culturally defined      *Genesis: History, Fiction, or Neither?* James K.
