

Origins of the Cold War

"From Stettin in the Baltic to Trieste in the Adriatic an 'iron curtain' has descended across the continent. Behind that line lie all the capitals of the ancient states of Central and Eastern Europe. All these famous cities and the populations around them lie in what I must call the Soviet sphere, and all are subject, in one form or another, not only to Soviet influence but to a very high and in some cases increasing measure of control from Moscow."

-British PM Winston Churchill

Biology Ebook Raven,2016-05-16 Biology Ebook **EBOOK: Biology** Peter Raven,George Johnson,Kenneth Mason,Jonathan Losos,Susan Singer,2013-02-16 Committed to Excellence in the Landmark Tenth Edition This edition continues the evolution of Raven Johnson s Biology The author team is committed to continually improving the text keeping the student and learning foremost We have integrated new pedagogical features to expand the students learning process and enhance their experience in the ebook This latest edition of the text maintains the clear accessible and engaging writing style of past editions with the solid framework of pedagogy that highlights an emphasis on evolution and scientific inquiry that have made this a leading textbook for students majoring in biology and have been enhanced in this landmark Tenth edition This emphasis on the organizing power of evolution is combined with an integration of the importance of cellular molecular biology and genomics to offer our readers a text that is student friendly and current Our author team is committed to producing the best possible text for both student and faculty The lead author Kenneth Mason University of Iowa has taught majors biology at three different major public universities for more than fifteen years Jonathan Losos Harvard University is at the cutting edge of evolutionary biology research and Susan Singer Carleton College has been involved in science education policy issues on a national level All three authors bring varied instructional and content expertise to the tenth edition of Biology Exporting Freedom Anna Su,2016-01-04 Religious freedom is recognized as a basic human right guaranteed by nearly all national constitutions Anna Su charts the rise of religious freedom as an ideal firmly enshrined in international law and shows how America s promotion of the cause of individuals worldwide to freely practice their faith advanced its ascent as a global power Cold War Science and the Transatlantic Circulation of Knowledge ,2015-11-02 Cold War Science and the Transatlantic Circulation of Knowledge delves into how the Cold War as a global phenomenon shaped local conditions and decisions for science in light of US Europe relationships The articles in this volume edited by Jeroen van Dongen show how the western network in which science was circulated and produced was strongly conditioned by the state and its international relations The workings of secrecy the consequences of US hegemony and decolonization and the ambitions of post war recovery attempts were all mediated through the interference of the state and through its relative position in the network At the same time hubristic expectations prefigured in the state s relation to science *De-Centering Cold War History* Jadwiga E. Pieper Mooney,Fabio Lanza,2013-01-25 De Centering Cold War History challenges the Cold War master narratives that focus on super power politics by shifting our analytical perspective to include local level experiences and regional initiatives that were crucial to the making of a Cold War world Cold War histories are often told as stories of national leaders state policies and the global confrontation that pitted a Communist Eastern Bloc against a Capitalist West Taking a new analytical approach this book reveals unexpected complexities in the historical trajectory of the Cold War Contributions from an international group of scholars take a fresh look at historical agency in different places across the

world including Africa Asia Europe and the Americas This collaborative effort shapes a street level history of the global Cold War era one that uses the analysis of the local to rethink and reframe the wider picture of the global connecting the political negotiations of individuals and communities at the intersection of places and of meeting points between ordinary people and political elites to the Cold War at large Essential reading for all students of Cold War history **Human Heritage** Miriam Greenblatt, Peter S. Lemmo, 2001 A world history textbook chronicling the rise of Western and Eastern civilizations Includes photos art illustrated charts vocabulary exercises and review questions [The Myth of American Diplomacy](#) Walter L. Hixson, 2008 In this major reconceptualization of the history of U S foreign policy Walter Hixson engages with the entire sweep of that history from its Puritan beginnings to the twenty first century s war on terror He contends that a mythical national identity which includes the notion of American moral superiority and the duty to protect all of humanity has had remarkable continuity through the centuries repeatedly propelling America into war against an endless series of external enemies As this myth has supported violence violence in turn has supported the myth The Myth of American Diplomacy shows the deep connections between American foreign policy and the domestic culture from which it springs Hixson investigates the national narratives that help to explain ethnic cleansing of Indians nineteenth century imperial thrusts in Mexico and the Philippines the two World Wars the Cold War the Iraq War and today s war on terror He examines the discourses within America that have continuously inspired what he calls our pathologically violent foreign policy The presumption that as an exceptionally virtuous nation the United States possesses a special right to exert power only encourages violence Hixson concludes and he suggests some fruitful ways to redirect foreign policy toward a more just and peaceful world *India and the Cold War* Manu Bhagavan, 2019-08-13 This collection of essays inverts the way we see the Cold War by looking at the conflict from the perspective of the so called developing world rather than of the superpowers through the birth and first decades of India s life as a postcolonial nation Contributors draw on a wide array of new material from recently opened archival sources to literature and film and meld approaches from diplomatic history to development studies to explain the choices India made and to frame decisions by its policy makers Together the essays demonstrate how India became a powerful symbol of decolonization and an advocate of non alignment disarmament and global governance as it stood between the United States and the Soviet Union actively fostering dialogue and attempting to forge friendships without entering into formal alliances Sweeping in its scope yet nuanced in its analysis this is the authoritative account of India and the Cold War Contributors Priya Chacko Anton Harder Syed Akbar Hyder Raminder Kaur Rohan Mukherjee Swapna Kona Nayudu Pallavi Raghavan Srinath Raghavan Rahul Sagar and Waheguru Pal Singh Sidhu **All the Fish in the Sea** Carmel Finley, 2011-08-22 Between 1949 and 1955 the State Department pushed for an international fisheries policy grounded in maximum sustainable yield MSY The concept is based on a confidence that scientists can predict theoretically the largest catch that can be taken from a species stock over an indefinite period And while it was modified in 1996 with

passage of the Sustained Fisheries Act MSY is still at the heart of modern American fisheries management As fish populations continue to crash however it is clear that MSY is itself not sustainable Indeed the concept has been widely criticized by scientists for ignoring several key factors in fisheries management and has led to the devastating collapse of many fisheries Carmel Finley reveals that the fallibility of MSY lies at its very inception as a tool of government rather than science The foundational doctrine of MSY emerged at a time when the US government was using science to promote and transfer Western knowledge and technology and to ensure that American ships and planes would have free passage through the world's seas and skies Finley charts the history of US fisheries science using MSY as her focus and in particular its application to halibut tuna and salmon fisheries Fish populations the world over are threatened and *All the Fish in the Sea* helps to sound warnings of the effect of any management policies divested from science itself *Living with War* Robert Teigrob, 2016-04-11 Canada and the United States we think of one as a peaceable kingdom the other as a warrior nation But do our expectations about each country's attitudes to war and peace match the realities In *Living with War* Robert Teigrob examines how war is experienced and remembered on both sides of the 49th parallel Surveying popular and scholarly histories films and literature public memorials and museum exhibits in both countries he comes to some startling conclusions Americans may seem more patriotic even jingoistic but they are also more willing to debate the pros and cons of their military actions Canadians though more diffident in their public displays of patriotism are more willing than their southern neighbors to accept the official narrative that depicts just wars fought in the service of a righteous cause A provocative book that complements critiques of contemporary Canadian militarism such as *Warrior Nation* *Living with War* offers an intriguing look at the relationship with the military past on both sides of the border **The Final Revolution** George Weigel, 2003-09-18 The collapse of communism in central and eastern Europe the Revolution of 1989 was a singularly stunning event in a century already known for the unexpected How did people divided for two generations by an Iron Curtain come so suddenly to dance together atop the Berlin Wall Why did people who had once seemed resigned to their fate suddenly take their future into their own hands Some analysts have explained the Revolution in economic terms arguing that the Warsaw Pact countries could no longer compete with the West But as George Weigel argues in this thought provoking volume people don't put their lives and their children's futures in harm's way simply for better cars refrigerators and TVs Something else something more had to happen behind the iron curtain before the Wall came tumbling down In *The Final Revolution* Weigel argues that that something was a revolution of conscience The human turn to the good to the truly human and ultimately to God was the key to the political Revolution of 1989 Weigel provides an in depth exploration of how the Catholic Church shaped the moral revolution inside the political revolution Drawing on extensive interviews with key leaders of the human rights and resistance movements he opens a unique window into the soul of the Revolution and into the hearts and minds of those who shaped this stirring vindication of the human spirit Weigel also examines the central role played by

Pope John Paul II in confronting what Václav Havel called communism's culture of the lie and he suggests what the future role of the Church might be in consolidating democracy in the countries of the old Warsaw Pact The final revolution is not the end of history Weigel concludes It is the human quest for a freedom that truly satisfies the deepest yearnings of the human heart The Final Revolution illustrates how that quest changed the face of the twentieth century and redefined world politics in the year of miracles 1989

The Origins of Genocide Dominik J. Schaller, Jürgen Zimmerer, 2013-09-13 This year the United Nations celebrated the Convention on the Prevention and Punishment of the Crime of Genocide adopted in December 1948 It is time to recognize the man behind this landmark in international law At the beginning were a few words New conceptions require new terms By genocide we mean the destruction of a nation or of an ethnic group Rarely in history have paradigmatic changes in scholarship been brought about with such few words Putting the quintessential crime of modernity in only one sentence Raphael Lemkin 1900 1959 the Polish Jewish specialist in international law not only summarized the horrors of the National Socialist Crimes which were still underway when he coined the term genocide in 1944 but also influenced international law As the founding figure of the UN Genocide Convention Lemkin is finally getting the respect he deserves Less known is his contribution to historical scholarship on genocide Until his death Lemkin was working on a broad study on genocides in the history of humankind Unfortunately he did not manage to publish it The contributions in this book offer for the first time a critical assessment not only of his influence on international law but also on historical analysis of mass murders showing the close connection between both This book was published as a special issue of the Journal of Genocide Research

Practicing Utopia Rosemary Wakeman, 2016-04 Rosemary Wakeman provides a sweeping history of new towns those created by fiat rather than out of geographic or economic logic and often intended to break with the tendencies of past development Heralded throughout the twentieth century as solutions to congestion environmental threats architectural malaise and cultural anomie today they are often seen as sad pernicious or merely suburban Wakeman shows that hundreds of such towns sprang from templates and designs not only in North America and across Europe but around the world revealing how different cultures dreamed of reorganizing themselves Wakeman also illuminates the missteps and unanticipated results of the initial optimistic choices and impulses

Subversive Southerner Catherine Foster, 2006-08-01 With a Foreword by Angela Y Davis Winner of the 2003 Oral History Association Book Award Winner of the 2003 Gustavus Myers Center for Human Rights Outstanding Book Award Anne McCarty Braden 1924 2006 was a courageous southern white woman who in the late 1940s rejected her segregationist and privileged past to become a lifelong crusader against racial discrimination Arousing the conscience of white southerners to the reality of racial injustice Braden was branded a communist and seditionist by southern politicians who used McCarthyism to buttress legal and institutional segregation as it came under fire in federal courts She became nevertheless one of the civil rights movement's staunchest white allies and one of five southern whites commended by Rev Martin Luther King Jr in his 1963 Letter from Birmingham Jail Although

Braden remained a controversial figure even in the movement her commitment superseded her radical reputation and she became a mentor and advisor to students who launched the 1960s sit ins and to successive generations of peace and justice activists In this riveting oral history based biography Catherine Fosl also offers a social history of how racism sexism and anticommunism overlapped in the twentieth century south and how ripples from the Cold War divided and limited the southern civil rights movement

Placeless People Lyndsey Stonebridge,2018-11-10 In 1944 the political philosopher and refugee Hannah Arendt wrote Everywhere the word exile which once had an undertone of almost sacred awe now provokes the idea of something simultaneously suspicious and unfortunate Today s refugee crisis has its origins in the political and imaginative history of the last century Exiles from other places have often caused trouble for ideas about sovereignty law and nationhood But the meanings of exile changed dramatically in the twentieth century This book shows just how profoundly the calamity of statelessness shaped modern literature and thought For writers such as Hannah Arendt Franz Kafka W H Auden George Orwell Samuel Beckett Simone Weil among others the outcasts of the twentieth century raised vital questions about sovereignty humanism and the future of human rights *Placeless People* argues that we urgently need to reconnect with the moral and political imagination of these first chroniclers of the placeless condition

The George W. Bush Defense Program Stephen J. Cimbala,2010 The events of 9 11 and the wars in Iraq and Afghanistan make an obvious case for expert study of the George W Bush defense program During the Bush administration the rise and fall of governments the fates of peoples and the very definitions of war and victory were up for discussion The United States with its unprecedented global military power at the dawn of the twenty first century created new opportunities for using foreign policy and military strategy on behalf of national and allied interests But this power was limited and its use against unconventional or otherwise unorthodox enemies required careful calibration of its various instruments In this insightful series of essays edited by Stephen Cimbala eleven academic experts prominent in the defense and security think tank communities assess Bush s defense program Many also have past or current experience in the U S government or the American armed forces They examine Bush s defense policy and strategy across several critical issues including Iraq Afghanistan terrorism nuclear arms control and foreign military sales In addition special chapters are devoted to the leadership style of former defense secretary Donald Rumsfeld to the idea of victory as it might apply to Bush s defense decisions and to the best exit strategy from Iraq for the United States The lessons learned from the successes and failures in Bush s defense policy clearly presented in *The George W Bush Defense Program* can also be applied to the appraisal of all presidents

Indian Foreign Policy Priya Chacko,2013-06-17 The rise of India as a major power has generated new interest in understanding the drivers of its foreign policy This book argues that analysing India s foreign and security policies as representational practices which produce India s identity as a postcolonial nation state helps to illuminate the conditions of possibility in which foreign policy is made Spanning the period between 1947 and 2004 the book focuses on key moments of crisis such as the India China war in 1962 and the nuclear tests

of 1972 and 1998 and the approach to international affairs of significant leaders like Jawaharlal Nehru The analysis sheds new light on these key events and figures and develops a strong analytical narrative around India's foreign policy behaviour based on an understanding of its postcolonial identity It is argued that a prominent facet of India's identity is a perception that it is a civilizational state which brings to international affairs a tradition of morality and ethical conduct derived from its civilizational heritage and the experience of its anti colonial struggle This notion of civilizational exceptionalism as well as other narratives of India's civilizational past such as its vulnerability to invasion and conquest have shaped the foreign policies of governments of various political hues and continue to influence a rising India **British Art in the Nuclear Age**

Catherine Jolivet, 2017-07-05 Rooted in the study of objects British Art in the Nuclear Age addresses the role of art and visual culture in discourses surrounding nuclear science and technology atomic power and nuclear warfare in Cold War Britain Examining both the fears and hopes for the future that attended the advances of the nuclear age nine original essays explore the contributions of British born and artists in the areas of sculpture textile and applied design painting drawing photo journalism and exhibition display Artists discussed include Francis Bacon John Bratby Lynn Chadwick Prunella Clough Naum Gabo Barbara Hepworth Peter Lanyon Henry Moore Eduardo Paolozzi Peter Laszlo Peri Isabel Rawsthorne Alan Reynolds Colin Self Graham Sutherland Feliks Topolski and John Tunnard Also under discussion is new archival material from Picture Post magazine and the Festival of Britain Far from insular in its concerns this volume draws upon cross cultural dialogues between British and European artists and the relationship between Britain and America to engage with an interdisciplinary art history that will also prove useful to students and researchers in a variety of fields including modern European history political science the history of design anthropology and media studies *Age of Emergency* Erik Linstrum, 2023 Analyzing the period after 1945 when uprisings against colonial rule broke out across the world Age of Emergency Oxford University Press focuses on how violence was experienced in the lives of ordinary people in imperial Britain Using various historical records including letters television newspapers novels and more Linstrum uncovers the violent torture executions and gruesome punishments the community faced Throughout his writing Linstrum demonstrates the significance of war beyond the fight between soldiers and the ways in which war encroaches on all aspects of life

American Foreign Policy Glenn P. Hastedt, 2023-02-06 World affairs are constantly in flux so students need to be prepared not just to know what's happening in the headlines but how to make sense of those events Hastedt's American Foreign Policy helps students develop the critical thinking skills needed to participate in debates about foreign relations today and throughout their lives Rather than focus on normative questions about what direction the country should take on the world stage this text is designed to provide the historical and institutional context for the foreign policy process from the governmental and civil society actors involved to the issues that comprise the conduct and content of American foreign policy This thirteenth edition comes at a time when Biden's presidency is facing some of the most important foreign policy

questions in a generation from the US withdrawal from Afghanistan to what we should do about the Russian invasion of Ukraine. These issues have emerged as many of the traditional foundations in American foreign policy have been disrupted during the Trump administration, pleasing some and angering others but almost uniformly raising political tensions at home and abroad. The revision includes up-to-date coverage of the war in Ukraine, the US exit from Afghanistan, health diplomacy, and the response to COVID, the resurgence of great power politics, and other features of the Biden administration's foreign policy. This fully revised thirteenth edition features updated coverage on the Biden presidency, including the US withdrawal from Afghanistan, the Russian invasion of Ukraine, health diplomacy, and the resurgence of great power politics. NEW Learning Objectives to frame the expected student outcomes for each chapter. Updated On the Agenda, formerly Dateline, features that open each chapter to set the stage and tie a current policy issue to the chapter content. Expanded Critical Thinking Questions at the end of each chapter to engage students in higher order thinking beyond rote memorization. An expanded art program including additional tables to engage diverse learning styles.
