A Military History of the New World Disorder, 1989-2022 Jonathan M. House, 2025-05-06 The collapse of the Soviet Union in 1989 freed the world of the political and military perils and imperatives of the Cold War But it also introduced a whole new constellation of risks and challenges as Jonathan M House brings into sharp relief in *A Military History of the New World Disorder 1989 2022* the third and final volume in his comprehensive trilogy of military developments around the globe since the Second World War What followed the breaking of the Cold War's grip on global affairs was not so much a new world order as a new world disorder as the United States and its allies suddenly found themselves without the sort of coherent grand strategy previously deployed to contain the Soviet Union Focusing largely but not exclusively on the US House surveys subsequent developments in military strategy and operations the processes by which politicians and military leaders of the major powers designed organized resourced and then employed military forces to conduct or deter conflicts His overview ranges from conflicts in Iraq and Afghanistan to American interventions in Panama Somalia former Yugoslavia and Haiti Israel vs Hezbollah in Lebanon and the resurgence of the Russian military in Syria Georgia and Ukraine Throughout House provides a compelling analysis of recent military developments including the strengths and weaknesses of employing precision guided munitions counter insurgency techniques and other controversial methods of current warfare His work reveals the complex relationship between national political decisions to commit armed forces to conflicts and the results on the battlefield and offers a timely perspective on military power and practice in the current day

Peacekeeping in South Sudan R. Munson, 2015-05-20 A scholarly perspective of a soldier's own challenges working in the United Nations Mission in South Sudan UNMISS This work examines how regional cultural knowledge and language ability contribute to improved leadership in a UN operation based on the author's own experiences as a staff officer in South Sudan

The War in Southern Africa MIGUEL JUNIOR, 2021-01-13 This book on the national strategy of Angola targets several objectives First to attest that the newly independent Angolan state also formulated a national strategy in the light of its political and philosophical vision The Angolan state during the period under consideration had its own structured vision which prevented it from going adrift and playing second fiddle within the context of political and military confrontation in Southern Africa Second to demonstrate that the Angolan state structured its own strategic thought to tackle the regional armed confrontation and the different internal and external challenges

Battle Story: Isandlwana 1879 Edmund Yorke, 2011-09-30 On 22 January 1879 a 20 000 strong Zulu army attacked 1 700 British and colonial forces The engagement saw primitive weapons of spears and shields clashing with the latest military technology However despite being poorly equipped the numerically superior Zulu force crushed the British troops killing 1 300 men whilst only losing 1 000 of their

own warriors It was a humiliating defeat for the British Army who had been poorly trained and who had underestimated their enemy The defeat ensured that the British had a renewed respect for their opponents and changed their tactics rather than fighting in a straight linear formation known as the Thin Red Line they adopted an entrenched system or close order foundations The defeat caused much consternation throughout the British Empire who had assumed that the Zulu were no match for the British Army and thus the army was greatly reinforced and went on to victory at Rorke s Drift Battle Story Isandlwana puts you at the forefront of the action *The African Union (AU)* Konstantinos D. Eva-Maria Muschik,2022-04-13 Postwar multilateral cooperation is often viewed as an attempt to overcome the limitations of the nation state system However in 1945 when the United Nations was founded large parts of the world were still under imperial control Building States investigates how the UN tried to manage the dissolution of European empires in the 1950s and 1960s and helped transform the practice of international development and the meaning of state sovereignty in the process Eva Maria Muschik argues that the UN played a key role in the global proliferation and reinvention of the nation state in the postwar era as newly independent states came to rely on international assistance Drawing on previously untapped primary sources she traces how UN personnel usually in close consultation with Western officials sought to

manage decolonization peacefully through international development assistance Examining initiatives in Libya Somaliland Bolivia the Congo and New York Muschik shows how the UN pioneered a new understanding and practice of state building presented as a technical challenge for international experts rather than a political process UN officials increasingly took on public policy functions despite the organization's mandate not to interfere in the domestic affairs of its member states These initiatives Muschik suggests had lasting effects on international development practice peacekeeping and post conflict territorial administration Casting new light on how international organizations became major players in the governance of developing countries Building States has significant implications for the histories of decolonization the Cold War and international development

The Origins of the African-American Civil Rights Movement Ai-min Zhang, 2014-05-22 The historical relationship between American urbanization industrialization and the emergence of the civil rights movement is examined in this thesis in order to establish why the African American Civil Rights Movement occurred The book discusses many factors that were fundamental to causing the rise of the civil rights movement It begins with a brief introduction to the African American's political economic and social conditions since the American Civil War and goes on to consider the effects of the two Great Black Migrations in which millions of black Americans moved to the big industrial cities and began to learn how to make effective use of their voting rights to protect their own interests Finally the book examines the effect of the Second World War and also the role of the Supreme Court

The Reagan Moment Jonathan R. Hunt, Simon Miles, 2021-12-15 In *The Reagan Moment* the ideas events strategies trends and movements that shaped the 1980s are revealed to have had lasting effects on international relations The United States went from a creditor to a debtor nation democracy crested in East Asia and returned to Latin America the People's Republic of China moved to privatize decentralize and open its economy Osama bin Laden founded Al Qaeda and relations between Washington and Moscow thawed en route to the Soviet Union's dissolution *The Reagan Moment* places US foreign relations

into global context by examining the economic international and ideational relationships that bound Washington to the wider world Editors Jonathan R Hunt and Simon Miles bring together a cohort of scholars with fresh insights from untapped and declassified global sources to recast Reagan s pivotal years in power Contributors Seth Anziska James Cameron Elizabeth Charles Susan Colbourn Michael De Groot Stephanie Freeman Christopher Fuller Flavia Gasbarri Mathias Haeussler William Inboden Mark Atwood Lawrence Elisabeth Mariko Leake Melvyn P Leffler Evan D McCormick Jennifer Miller David Painter Robert Rakove William Michael Schmidli Sarah Snyder Lauren Frances Turek James Wilson Elephant Treaties Rachelle Adam,2014-01-07 Based on a legal history of international biodiversity treaties from the late nineteenth century to the present Rachelle Adam argues that today s biodiversity crisis is rooted in European colonial history especially in the conservation treaties that the colonial powers and their non governmental counterparts negotiated to protect Africa s big game animals Reflecting on the colonial past particularly on efforts to manage the commerce in elephant ivory Adam sheds light on why more recent attempts to arrest the decline in biodiversity by way of international agreement have failed This volume will spur a rethinking of such agreements and trigger a search for alternatives outside of existing international structures *Nebraska History* Addison Erwin Sheldon,James Lee Sellers,James C. Olson,2015 *Federal Register Index* ,2010 The Fires Beneath Seán Morrow,2016-06-01 The life of Monica Wilson is a story of groundbreaking scholarship passionate creativity and personal tragedy during South Africa s bitter and divided twentieth century As a young anthropologist in the 1930s Monica immersed herself in the lives work and beliefs of African communities in southern and East Africa while carefully observing the effects of historical change At the core of her existence was her intellectual collaboration and intense personal relationship with her husband the brilliant but clinically depressive Godfrey Wilson who took his own life in 1944 After Godfrey s death Monica raised their two children and built a career as a leading academic at Fort Hare Rhodes University College and the University of Cape Town In a political environment where black academics were under constant threat and ideas were censored she outspokenly advocated racial equality and freedom of speech her publications emphasising a common South African identity and implicitly challenging apartheid separate development This fascinating biography moves between the Eastern Cape Cambridge Tanganyika Nyasaland Northern Rhodesia and Cape Town It explores the relationship between anthropology and history and the tensions between liberalism Christianity Marxism and apartheid ideology Drawing on the letters and diaries left by Monica and Godfrey Wilson this is a powerful story about politics race war faith love and loss
