better way Everyone has a different definition of success but this kind of a person can live a successful life Everyone has a different way of living his life But there is always a cause for all the consequences When we think that success is getting what you want a successful person has every reason to have success in the way he spends his life These people are thorough in self development and know how to control themselves And they try to live their life in a way that is more helpful to society not just for their own benefit Wouldn't it be better for our society if everyone lived in this world with that attitude It is by no accident that we were born into this world at this time It is said that the probability that we will be born as a human is very low Being born as a human being is a blessing to everyone Everyone has a reason for being born in the world If they fully realize that they can wholly enjoy such blessings So how can you live your life so that you don't regret it when you die We all need to think about this question deeply If you've never thought of this before then reflect back on your life and think We all have to ask ourselves why we live our lives what we live for and how we live our lives Answering these questions can make our lives more meaningful Some people are happy with their lives right now and may want to live like they currently do without any specific changes However it is this writer's opinion that it is our duty to live a life which encompasses growth and improvement Everything in the world is bound to change over time in a progressive direction to suit the circumstances of the time It can be exhilarating to adapt well to changes in your life and to grow in a positive direction Everyone deserves to pursue such a life which is a way to make life meaningful There are many difficulties and sufferings in life I also had a difficult time at an early age due to my failure of a high school entrance exam but I was able to overcome it and become a professor In such a process of suffering and hardship human beings tend to grow And there are many opportunities in life The person who can seize such an opportunity must be as ready as he can be There is no such thing as a free lunch It is natural to pay that much to seize such an opportunity To get the opportunity that you want you also need a determination and a challenge which can lead to many setbacks But these are only part of the process of turning you into a more mature human being Therefore you can feel great hope and satisfaction in life by not being afraid of anything and by trying out new things Can you really enjoy your life if you just live the same life every day without any changes Human beings are able to taste the real taste of life in a challenging and a growing life Therefore I hope you will live a life that grows as you try and fail a lot
